Employee  
Contribution Rates

The pension tiers administered by the Marin County Employees' Retirement Association (MCERA) on behalf of our nine employers are detailed in the following tables. Within each table you can link to the employee contribution rates as of July 1, 2023 for each tier.

Employee contribution rates for members in Classic tiers are determined by age of entry or re-entry into MCERA membership, or age of entry with a prior reciprocal retirement system. Employee contribution rates for PEPPRA tiers are a fixed rate percentage regardless of age.

Employee contribution rates are set annually by the Retirement Board upon adoption of the annual actuarial valuation report. The contribution rates effective July 1, 2023 are based on the annual actuarial valuation as of June 30, 2022. The June 30, 2022 actuarial valuation can be found on MCERA's website at [www.MCERA.org](http://www.MCERA.org) on the Reports page.

## Frequently Asked Questions

### Which retirement tier am I in?

Your retirement tier is printed on your Annual Benefit Statements. You can also contact MCERA at (415) 473-6147 and our staff will look up the information for you.

### Is my future retirement benefit based on my contributions?

No. MCERA is a defined benefit plan, which means that your future service retirement benefit is calculated using a formula that is based on your age at retirement, your service credit, and your highest average compensation. Your accumulated contributions and interest do not factor into the calculation of a service retirement benefit.

### Does my contribution account earn interest?

Yes. Your account receives interest every June 30 and December 31 on the previous six-month balance. The current interest rate and the amount you received are on your annual benefit statement. If you terminate employment and decide to withdraw your MCERA account, all of your member contributions and earned interest will be refunded to you.

### Can I increase my contributions?

No. Employee contribution rates are recommended by MCERA's actuary and adopted by the Retirement Board in accordance with the law. Also, because this is a defined benefit plan your retirement benefit is determined by a fixed formula that does not take your contributions into consideration. An increase in your contributions would not result in an increased service retirement benefit.

If you participate in a deferred compensation plan, such as a 457(b) plan offered by your employer, you may be able to increase your contributions to that account and increase your future benefit from that plan. We recommend contacting the plan provider for more information.

### Can I borrow from my account?

No. The money you contribute is held solely for the purpose of paying a future benefit or refunded to you if you terminate employment and elect to end your MCERA membership.

### Why is my contribution rate different from my coworker's rate?

Member contribution rates are based on a number of factors. For **Classic members**, your contribution rate is determined by your retirement tier and your age at entry or re-entry into MCERA membership, or your age at entry into a prior reciprocal retirement system. The younger you are when you enter membership in a Classic tier, the lower your contribution rate will be. Contribution rates for **PEPRA members** are determined by tier only, and are the same for all members within that tier regardless of age at entry into membership.

### Do I have to withdraw my contributions if I leave employment and don't retire?

No. If you terminate employment with one of MCERA's participating employers you have the option to leave your member contributions and interest on deposit and retire at a later date. If you have at least 5 years of service credit, including purchased and reciprocal service, you are vested and can retire when you have met all eligibility requirements. If you have less than 5 years of service credit your earliest retirement eligibility occurs at age 70.
