Las Vegas Sands Corp.	05/12/2022	Management	12	Yes	Advisory Vote to Ratify Named Executive Officers' Compensation	For	Against	Against	Against	A vote AGAINST this proposal is warranted. While executives did not receive annual equity awards or payouts under the annual incentive program in 2021, the one-time awards granted to NEOs are problematic. The value of the awards, which were granted for retention purposes and in light of the lack of regular-cycle incentive awards for two consecutive years, is excessive, and vesting is subject to performance over a relatively short period. NEOs received additional one-time grants of RSUs in connection with new employment agreements; these awards are entirely time-vesting and lack a compelling rationale. Finally, the CEO and COO each received sizable gross-up payments on excessive perquisites, which are provided by their employment agreements and are considered to be problematic.

Lennar Corporation	04/12/2022	Management	12	Yes	Advisory Vote to Ratify Named Executive Officers' Compensation	For	Against	Against	Against	A vote AGAINST the proposal is warranted. The company utilizes a co-CEO structure in addition to employing an Executive Chairman, whose total target pay opportunity is set above the pay of both CEOs. The concerns with this structure, which pays three executives at a CEO level, are further exacerbated by the annual bonus program, where payouts are not capped. The uncapped payouts in FY21 to each executive led to payouts at nearly double the total pay of peer CEOs, and year-over-year pay increases of over 50 percent. Shareholders may question the necessity of compensating three executives well above the level of the chief executive at other companies.

Lennox International Inc.	05/19/2022	Management	3	Yes	Advisory Vote to Ratify Named Executive Officers' Compensation	For	Against	Against	Against	A vote AGAINST this proposal is warranted. The company's regular annual and long-term incentive programs appear to be sufficiently tied to objective performance metrics. However, one-time retention awards made to all NEOs (with the exception of the outgoing CEO) raise significant concern given that the awards lack performance-vesting criteria and have relatively short two-year vesting. The proxy also lacks specific rationale for the awards, particularly the largest one to the COO.
Lennox International Inc.	05/19/2022	Management	4	Yes	Approve Qualified Employee Stock Purchase Plan	For	For	For	For	A vote FOR this proposal is warranted given that: * The purchase price is reasonable; * The shares reserved is relatively conservative; and * The offer period is within the limits prescribed by Section 423 of the Internal Revenue Code.

Some concerns remain relating to target setting under the annual incentive plan, as targets were set below actual results from the year prior, and to the rigor of performance shares, as the ROIC goal is not forwardly disclosed and the relative TSR modifier targets median performance and allows for upward adjustments even if absolute TSR is negative. Nonetheless, annual incentives are linked to pre-set financial metrics and half of equity awards are performance-based.

Changes to the FY21 annual incentive program simplified the program design and increased the weight of pre-set objective metrics, though concern is raised regarding the potential for a relatively sizable individual modifier. Long-term incentives remained half performance-based, though the performance period for a portion of the award was shortened to two years. However, the committee reduced the value of the CEO's target LTI opportunity for FY21 and closing cycle awards were earned below target, in line with performance.

Meta Platforms, Inc.	05/25/2022	Management	11	Yes	Advisory Vote to Ratify Named Executive Officers' Compensation	For	Against	Against	Against	There are several ongoing pay program and disclosure concerns. The company's award determinations remain discretionary, and incentive programs lack disclosed performance metrics and quantified goals. Disclosure around individual performance assessments is also poor, and the design allows for such considerations to have a potentially large impact on annual bonuses. Executives again received very large equity awards that lack performance vesting criteria. Moreover, the CEO's and COO's security costs, as well as the CEO's total amount of perquisite compensation, are exceedingly large. In light of these concerns, a vote AGAINST this proposal is warranted.

There should be a clear division between the head of the company, and the chair of the board. When there is no clear division of independence between the executive and board branches of a company, poor executive and/or board actions often go unchecked to the ultimate detriment of shareholders. A vote FOR this proposal is warranted as it seeks the adoption of a policy that requires the board's chairman to be an independent director.

There should be a clear division between the head of the company, and the chair of the board. When there is no clear division of independence between the executive and board branches of a company, poor executive and/or board actions often go unchecked to the ultimate detriment of shareholders. A vote FOR this proposal is warranted as it seeks the adoption of a policy that requires the board's chairman to be an independent director.

Monster Beverage Corporation	06/14/2022	Management	12	Yes	Advisory Vote to Ratify Named Executive Officers' Compensation	For	For	For	For	A vote FOR this proposal is warranted as pay and performance are reasonably aligned for the year in review. Annual incentives were based largely on a pre-set financial objective as well as individual performance. For 2021, the company increased the weighting of PSUs to 50 percent of the long-term equity mix and expanded the performance period to three years. However, compensating two co-CEOs at the same level can be costly to shareholders in terms of total executive compensation. Continued monitoring is warranted as the company shifts to a more performance-conditioned incentive program.

Netflix, Inc.	06/02/2022	Management	5	Yes	Declassify the Board of Directors	For	For	For	For	A vote FOR this proposal is warranted as declassifying the board would enhance board accountability to shareholders and this proposal demonstrates a commitment to shareholders' interests on the part of management.

Netflix, Inc.	06/02/2022	Management	9	Yes	Advisory Vote to Ratify Named Executive Officers' Compensation	For	Against	Against	Against	A vote AGAINST this proposal is warranted. Despite several consecutive years of relatively low support for this proposal, the compensation committee has again failed to demonstrate meaningful responsiveness to shareholders' concerns. In addition, there are ongoing significant concerns regarding NEO pay structure. Pay almost entirely consists of base salaries and grants of fully-vested option awards, the specific allocation of which is at the individual's election, resulting in excessive base salaries for certain NEOs. Further, the lack of time- or performance-vesting incentives eliminates at-risk pay and diminishes the incentive value of compensation. Furthermore, the company maintains agreements that contain a single trigger change in control provision, does not disclose a sufficient compensation clawback policy, sufficient stock ownership guidelines, or holding period requirements for executives, and provided an inordinate amount of personal aircraft use perquisites to the CEO.

Nielsen Holdings Plc	05/17/2022	Management	14	Yes	Advisory Vote to Ratify Named Executive Officers' Compensation	For	For	For	For	A vote FOR the proposal is warranted, with caution. The annual bonus was based entirely on pre-set financial metrics with rigorous performance targets. The long-term incentive program utilizes a multi-year performance period and discloses forward-looking targets. Additionally, though the company granted one-time performance option grant, the value of the award was modest and requires significant share price appreciation in order to vest. Finally, closing-cycle performance equity vested below target, which aligns with recent company performance. However, there are concerns regarding the increase in the CEO's LTI grant value amid sustained negative TSR. The one-time performance option grant also utilizes only a 21 consecutive trading day stock price hurdle, which could reward executives for a short-term peaks in performance. Continued close monitoring of equity award practices is warranted.

Norwegian Cruise Line Holdings	06/16/2022	Management	3	Yes	Advisory Vote to Ratify Named Executive Officers' Compensation	For	Against	Against	Against	A vote AGAINST this proposal is warranted. The compensation committee has demonstrated only a limited degree of responsiveness to shareholders' concerns following a failed say-on-pay vote last year. While the committee made certain positive changes, shareholders may have expected an affirmative commitment to not repeat incentive program adjustments and one-time awards in connection with the impacts of the ongoing pandemic. In addition, although the CEO's pay declined year-over-year given that he did not receive any one-time awards or payouts, his total pay remained relatively high. Some shareholders may object to the company's continued comparing of pay to peers that reflect the company's pre-pandemic economic situation and not the current reality of severe negative impacts to the company's financial and operational performance as well as share price. The CEO's elevated pay level is not substantiated by long-term share price or financial performance.

NXP Semiconductors N.V.	06/01/2022	Management	16	Yes	Approve Cancellation of Ordinary Shares	For	For	For	For	Votes AGAINST this proposal are warranted. The proxy discloses the shareholder engagement efforts taken after the prior year's relatively low say-on-pay support, as well as the feedback received from shareholders. Although some shareholders would still prefer for an additional metric to be utilized under the LTI plan, the company has made some improvements to its compensation practices in response to shareholder feedback, including the introduction of an ESG metric for the FY2022 annual incentive plan, increased disclosure regarding ESG goals and how they relate to the company's business, and a reduction in the threshold payout level for PSU awards from 50 to 25 percent of target. Nevertheless, The company provided sizable perquisites to the CEO and to NEO Owen during the year in review. These perquisites included a company car payment of \$27,018 and tax gross-up payments of \$41,544 for the CEO. Shareholders should continue to closely monitor the company's compensation practices, as the company's say-on-pay has received relatively low support for two consecutive years.

PacWest Bancorp	05/10/2022	Management	12	Yes	Advisory Vote to Ratify Named Executive Officers' Compensation	For	Against	Against	Against	Votes AGAINST this proposal is warranted. The compensation committee demonstrated only a limited degree of responsiveness to shareholders' concerns that led to a failed say-on-pay vote last year. While the company provides enhanced disclosure surrounding the CEO's retention award and other aspects of the compensation program and CEO succession planning, the actions taken by the committee do not meaningfully address all of shareholders' expressed concerns, which is paramount following a failed vote. In addition, concerns with respect to goal rigor under the annual and long-term incentive programs underscore a pay-for-performance misalignment. In the wake of shareholder feedback expressing concern regarding goal rigor, some shareholders may find the lowering of certain annual incentive goals concerning given payouts well above target. In addition, relative metrics under the LTI program target the median of peers, which is not considered particularly rigorous. Lastly, concerns are also raised with regards to the tax gross-up paid for the CEO's personal use of aircraft perquisites.

Annual incentives were largely based on objective performance metrics with improved disclosure of goals and achievements. Granted equity remained majority performance based, and while FY21 grants continue to target merely median performance, the proportion of performance equity will increase for FY22 grants. Additionally, in response to shareholder feedback, the board has committed to not provide special or one-time awards to executive officers absent extraordinary circumstances.

Although pay and performance are reasonably aligned for the year under review, the compensation committee has not demonstrated sufficient responsiveness to last year's failed say-on-pay vote. Planet Fitness, Inc.	05/02/2022	Management	5	Yes	Advisory Vote to Ratify Named Executive Officers' Compensation	For	Against	Against	Against	A vote AGAINST this proposal is warranted given that significant concerns regarding the structure of the pay program were identified for the year under review. In particular, although the annual incentive for the CEO is generally based on pre-set, objective measures, the STI plan provides for additional payouts if the bonus funding pool is not fully utilized. For FY21, the application of this practice under the STI plan resulted in the CEO's receiving a significant increase in his bonus payments outside of the formulaic determination of 1H 2021 and 2H 2022 performance outcomes. Furthermore, the committee granted entirely time-vesting equity in FY21 and supplanted in-flight PSU awards that were unlikely to be earned with time-vesting grants. These actions are not generally viewed as a reasonable reaction to account for the impact of the COVID-19 pandemic.

Prologis, Inc.	05/04/2022	Management	12	Yes	Advisory Vote to Ratify Named Executive Officers' Compensation	For	For	For	For	Following last year's low say-on-pay vote result, the compensation committee engaged with shareholders, disclosed specific feedback received, and implemented positive pay program changes and disclosure improvements. Accordingly, the committee has demonstrated adequate responsiveness. There continue to be some concerns regarding the complex nature of the company's multiple equity incentive programs, particularly with respect to the PPP program, and the rigor of LTI goals. However, these concerns have not resulted in a quantitative pay-for-performance misalignment for the year in review. In addition, the annual LTI and outperformance programs are entirely performance-based, and the value of the CEO's PPP awards decreased significantly year-over-year. Further, the committee increased the rigor of the annual LTI goals for future award cycles and eliminated the committee's ability to provide discretionary payouts when threshold goals are not achieved. Lastly, the annual program for all NEOs is now predominately based on pre-set, quantified goals with all targets clear disclosed, following an increase in the weighting of the corporate performance component for non-CEO NEOs and disclosure enhancements made in response to shareholder feedback. On balance of these factors, a vote FOR this proposal is warranted, with caution. Close continued monitoring of grant practices and pay outcomes under the long-term and outperformance programs is warranted given the concerns identified above.

Following a failed say-on-pay vote result, the compensation committee disclosed engagement efforts with shareholders as well as the feedback received in these engagements. The proxy also notes commitments and pay program changes that were made in response to these shareholder concerns.Additionally, the pay-for-performance misalignment is mitigated for the year in review. The STI program was entirely based on pre-set financial metrics, while 50 percent of the LTI grant is in performance-conditioned equity. Some concerns about the LTI program are noted, including that 100 percent of the FY21 grant and 50 percent of the FY22 grant will be based on annualized performance periods. The relative TSR metric also merely targets the 50th percentile, though the company added a feature that caps vesting at target if absolute TSR is negative.

PVH Corp.	06/16/2022	Management	12	Yes	Advisory Vote to Ratify Named Executive Officers' Compensation	For	For	For	For	A vote FOR this proposal is warranted. Annual incentives are entirely based on financial performance, and half of the CEO's equity is performance conditioned. In addition, total CEO pay decreased as compared to compensation for the prior CEO in 2020, and PSUs tied to 2019-2021 performance were forfeited when the threshold goals were not met. However, continued monitoring of long-term incentives is warranted in light of the one-year measurement period for a portion of 2021 PSUs, and given that NEOs' equity awards are primarily time-based.

Quest Diagnostics Incorporated	05/18/2022	Management	12	Yes	Provide Right to Act by Written Consent	For	For	For	For	A vote FOR this proposal is warranted given that the ability to act by written consent would give shareholders an additional means to act on matters between annual meetings.

Reinsurance Group of America,	05/25/2022	Management	12	Yes	Advisory Vote to Ratify Named Executive Officers' Compensation	For	Against	Against	Against	A vote AGAINST the proposal is warranted. The increase in pay for the year in review is due to an off-cycle one-time equity grant, which comes amid multiple years of forfeited performance equity. The one-time grant, which was only half based on performance-conditioned equity and does not disclose any forward-looking targets, appears to also have a relatively short performance period, and both the time-vesting and performance-vesting portions of the award can vest within two years of grant. There is an expectation that one-time awards utilize rigorous goal targets and are predominately performance-based over a long-term performance period. In the annual pay program, the annual bonus replaced a financial goal with a strategic scorecard with disclosure concerns, and multiple financial goals were set below the prior year's actual performance. The LTI mix also lowered the portion that was based on performance-conditioned equity, an action that shareholders generally disfavor.

Rivian Automotive, Inc.	06/06/2022	Management	5	Yes	Advisory Vote to Ratify Named Executive Officers' Compensation	For	Against	Against	Against	A vote AGAINST this proposal is warranted. NEOs received outsized equity awards in 2021 prior to the IPO. While the majority of the CEO's grant requires the achievement of performance criteria, the value of the grants appear excessive in value, particularly given the CEO's existing holdings in the company. Additionally, awards to other NEOs were entirely time-vesting. Further, the company modified awards to allow for potential vesting acceleration in connection with a termination of employment, which resulted in sizable increases to the value of the grants.

Although the compensation committee demonstrated adequate responsiveness to the prior year's low say-on-pay vote result, an unmitigated pay-for-performance misalignment exists for the year in review. There are concerns regarding the structure and disclosure of the CEO's new hire awards, which are amplified given the magnitude. Although the majority of the award is based on the achievement of certain milestones, many investors may expect a greater weighting ascribed to performance-vesting given the magnitude. In addition, the proxy does not clearly disclose the weighting of each milestone, the quantified revenue target, or a timeframe under which the milestones need to be achieved. The change in pension value again constituted a large portion of the CEO's reported pay, though the committee also increased his long-term incentive opportunity without specific rationale. However, concerns regarding the pay-for-performance misalignment were mitigated for the year in review. The annual incentive program primarily relied on a financial metric with a target set above actual performance in the prior year, and while a portion of long-term incentives target merely median TSR, the closing cycle TSR-based awards were earned below target, consistent with underperformance. Lastly, while CEO pay increased again in FY21, investors may expect reported pay levels to decline as the CEO's SERP valuation stabilizes.

ServiceNow, Inc.	06/09/2022	Management	10	Yes	Advisory Vote to Ratify Named Executive Officers' Compensation	For	Against	Against	Against	A vote AGAINST this proposal is warranted. NEOs received sizable one-time option awards in FY21 in addition to their regular annual LTI awards. While the options maintain performance vesting conditions, the magnitude of the grants is excessive, particularly for the CEO at approximately \$200 million. The CEO's regular incentive opportunities were also increased in FY21, further compounding pay magnitude concerns. In addition, while the annual and long-term incentives are primarily performance-based for FY21, certain concerns remain regarding the lack of disclosure of performance metric achievement and the continued over-reliance on a single performance measurement period for both programs. Further, while the company provided disclosure about the rationale, the continued use of primarily one-year performance periods under the LTI program is concerning, particularly as shareholders have expressed a desire for long-term performance metrics under the program and a new three-year relative TSR metric only applies to a fraction of the annual LTI awards.

Annual incentives primarily rely on pre-set objective measures with reasonable disclosure of qualitative metric details. Spirit AeroSystems Holdings, Inc.	04/27/2022	Management	12	Yes	Advisory Vote to Ratify Named Executive Officers' Compensation	For	For	Against	Against	Annual incentives remained determined largely by objective metrics, with below-target awards corresponding to recent performance. Although there is some concern raised given the majority time-based equity grants in FY21, the company will transition to half performance-conditioned equity grants starting in FY22 and closing cycle performance shares were not earned following below threshold performance, in line with three-year TSR performance. However, votes AGAINST this proposal are warranted because the company provided a large corporate aircraft perquisite to the CEO.

Splunk Inc.	06/16/2022	Management	5	Yes	Advisory Vote to Ratify Named Executive Officers' Compensation	For	Against	Against	Against	Following last year's failed say-on-pay vote, the committee demonstrated adequate responsiveness to shareholder concerns. However, although disclosed changes to next year's compensation program eliminate metric overlap in the incentive programs, concerns remain regarding the vesting structure for PSUs. FY22 awards are earned over a single annual performance period with a third of awarded shares vesting immediately, and changes for next year's awards continue to allow for annual payouts of fully vested shares, undermining the long-term nature of the program. Further concerns are raised by the structure and magnitude of new hire cash and equity awards granted to two NEOs, rendering them the highest and third-most highly compensated executives in the company for FY22. These awards include significant make-whole awards, paid in cash and subject to only limited repayment requirements, in addition to relatively large equity awards. Investors may question the necessity of paying multiple executives at the level of a CEO. Furthermore, concerns are raised as several NEOs received notable tax gross-up payments. Accordingly, a vote AGAINST this proposal is warranted.

Spotify Technology SA	04/20/2022	Management	4	Yes	Approve Discharge of Directors	For	For	For	For	A cautionary vote FOR this item is warranted given the lack of any specific concern with the board's actions over the past year. However, cautionary support is warranted as the company has failed to demonstrate good stewardship by failing to submit the remuneration to a shareholder vote. Despite not being formally required due to the company's cross market status, both in US and Luxembourg companies are required to offer shareholders a say-on-pay.

SS&C Technologies Holdings, I	05/11/2022	Management	4	Yes	Advisory Vote to Ratify Named Executive Officers' Compensation	For	Against	Against	Against	A vote AGAINST this proposal is warranted. The company made a sizable cash payment to a former NEO upon his voluntary resignation, which is a problematic pay practice. Furthermore, the annual bonus payout value was relatively large and entirely discretionary, lacking any payout formula or targets. There are also concerns regarding a lack of forward-looking goal disclosure and the grant practice of targeting a number of shares instead of a grant value, which is not common market practice. Finally, a non-CEO NEO was compensated above the company's peer group median CEO value, which exceeds seven years.

State Street Corporation	05/18/2022	Management	14	Yes	Advisory Vote to Ratify Named Executive Officers' Compensation	For	For	For	For	Annual incentive determinations are guided by a corporate performance assessment and individual performance modifier, but are ultimately determined discretionarily, which raises some concern. While this issue warrants continued monitoring, there are sufficient mitigating factors. Specifically, CEO pay and company performance are reasonably aligned for the year in review, and the increase in the CEO's incentive awards directionally aligns with generally improved company performance. Further, the CEO's incentives are delivered entirely in equity-based pay, and his long-term incentives are predominantly performance-conditioned with clearly disclosed multi-year goals. On balance of these factors, a vote FOR this proposal is warranted, with caution. A quantitative pay-for-performance misalignment going forward may be met with increased scrutiny of pay program structure and outcomes.

Textron Inc.	04/27/2022	Management	11	Yes	Advisory Vote to Ratify Named Executive Officers' Compensation	For	For	For	For	A vote FOR the proposal is warranted. The STI program was based entirely on pre-set objective metrics with a clearly disclosed payout formula and target goals. The LTI program was targeted to award half performance equity that now utilizes a three-year performance period, in response to investor feedback. Further, the compensation committee used its discretion to lower the vesting percentage of a previously granted PSU award. However, continued monitoring of the company's goal-setting practices is warranted, as a financial metric target in the STI was set below the prior year's actual performance, while no forward-looking targets in the LTI are disclosed.

The Allstate Corporation	05/24/2022	Management	12	Yes	Advisory Vote to Ratify Named Executive Officers' Compensation	For	For	For	For	There is some concern regarding STI structure and goal rigor. Although the STI pool is funded formulaically, individual payouts are ultimately discretionary. In addition, the company does not disclose forward-looking goals for one LTI metric or a cap on relative TSR vesting if absolute TSR is negative. However, the CEO received an STI payout at the formulaic funding level, consistent with past practice, and the committee provides a reasonable rationale for setting certain targets below 2020 results. In addition, the company targets a majority of equity awards as multi-year performance shares, the LTI metric for which goals are not disclosed is growth-based, and the relative TSR metric targets outperformance. On balance of these factors, a vote FOR this proposal is warranted, with caution. Continued close monitoring of STI goal rigor and discretionary payout determinations is warranted.

Shareholders would benefit from improved disclosure of adjustments made to closing-cycle performance shares and should continue to monitor pay outcomes in light of the degree to which discretion may ultimately influence awards. The Carlyle Group Inc.	05/31/2022	Management	6	Yes	Advisory Vote to Ratify Named Executive Officers' Compensation	For	Against	Against	Against	A vote AGAINST this proposal is warranted. The annual incentive program does not utilize specific metrics with pre-set target goals or individual weightings, and a significant portion of the CEO's bonus, and the entire bonus for the other NEOs, was determined by the committee's discretionary assessment of corporate and individual performance. Further, the proxy does not disclose a meaningful cap on the CIO's carried interest payment, which increased significantly year-over-year. The CEO's total target LTI award value was significantly elevated due to a new strategic equity award that was granted in addition to an annual performance-based RSU grant under another ongoing program. Although the CEO's awards were entirely performance-based, both programs utilized one-year performance periods, and the new strategic equity award was tied to the same metric and target as the ongoing performance-based RSUs, essentially providing multiple payouts for the same single achievement.

The Coca-Cola Company	04/26/2022	Management	12	Yes	Advisory Vote to Ratify Named Executive Officers' Compensation	For	Against	Against	Against	A vote AGAINST the proposal is warranted. Annual incentives are primarily determined by financial growth metrics, and the majority of long-term incentives are performance-based with goals clearly disclosed. In addition, an increase in CEO pay is driven by a one-time award that is entirely performance conditioned, with fully disclosed goals that appear to be rigorous. However, disclosure around the rationale for the CEO's special award in the proxy statement is somewhat limited. Moreover, the company entered into a consulting agreement with a former NEO which provides for excessive compensation, which is considered a problematic pay practice.

The Coca-Cola Company	04/26/2022	Shareholder	15	Yes	Report on Global Public Policy and Political Influence	Against	Against	For	For	A vote FOR this resolution is warranted, as increased global transparency and disclosure around the company's memberships in political organizations and lobbying expenditures, as well as the firm's management- and board-level oversight of spending would help shareholders evaluate the company's management of related risks and benefits more comprehensively.
The Coca-Cola Company	04/26/2022	Shareholder	16	Yes	Require Independent Board Chair	Against	For	For	For	Two major components at the top of every public company are the running of the board, and the executive responsibilities of running of the company's business. There should be a clear division between the head of the company, and the chair of the board. When there is no clear division of independence between the executive and board branches of a company, poor executive and/or board actions often go unchecked to the ultimate detriment of shareholders. A vote FOR this proposal is warranted as it seeks the adoption of a policy that requires the board's chairman to be an independent director.

The TJX Companies, Inc.	06/07/2022	Management	14	Yes	Advisory Vote to Ratify Named Executive Officers' Compensation	For	Against	Against	Against	A vote AGAINST the proposal is warranted. A significant increase in reported CEO pay was driven by discretionary adjustments to multiple cycles of previously granted PSUs, and concerns regarding the \$9.4 million in incremental value attributed to the 2019-2021 PSU adjustment are compounded by the additional \$2.7 million in value related to the adjustment of the 2020-2022 PSUs. Investors generally do not view the modification of previously granted incentive awards to be an appropriate response to the pandemic and may be particularly concerned by consecutive adjustments that increased payouts. Further, annual incentive awards were earned near maximum and a significant portion of payouts were determined based on the compensation committee's subjective assessment of performance.

The Trade Desk, Inc.	05/26/2022	Management	5	Yes	Advisory Vote to Ratify Named Executive Officers' Compensation	For	Against	Against	Against	A vote AGAINST this proposal is warranted as there are several significant concerns with respect to executive pay and factors cannot be identified that sufficiently mitigate a pay-for-performance misalignment for the year under review. Significant concern is raised with a special stock option award granted to the CEO, which, while tied to achieving stock price hurdles, is excessive at \$806.7 million (Public Fund Advisory Services valuation), and the board does not make a firm commitment not to grant the CEO additional equity while the options are outstanding. In addition, although annual incentives were formulaically determined based on a revenue goal that appeared to be rigorous, the CEO received an additional discretionary cash bonus that was sizable and lacks disclosure. The regular annual LTI program is also not sufficiently performance-based as awards lack any performance conditions.

The Travelers Companies, Inc.	05/25/2022	Management	15	Yes	Advisory Vote to Ratify Named Executive Officers' Compensation	For	Against	Against	Against	A vote AGAINST the proposal is warranted. Although the pay program remains relatively unchanged, an unmitigated pay-for-performance misalignment exists for the year in review. The majority of long-term incentives are based on clearly disclosed multi-year goals, however, the value of the CEO's performance year equity award increased while long-term TSRs lagged the S&P 500. In addition, while the annual bonus payout is informed by certain financial metrics with disclosed targets, payouts are ultimately discretionarily determined. Further, the proxy does not disclose target or maximum STI opportunities, threshold or maximum goals, or per-metric weightings. Investors increasingly prefer an STI structure that emphasizes objective and transparent determinations, and the lack of such key disclosures limits transparency into pay decisions, which is particularly important in years in which a quantitative pay-for-performance misalignment is identified.

The Walt Disney Company	03/09/2022	Management	13	Yes	Advisory Vote to Ratify Named Executive Officers' Compensation	For	For	Against	Against	A vote AGAINST this proposal is warranted. While meaningful improvements were made to address shareholders' concerns following last year's low say-on-pay vote, and pay and performance were reasonably aligned for the year in review, certain concerns are raised regarding goal-setting that warrant continued monitoring. In the annual incentive program, two financial targets were set well below actual performance in the prior year, without corresponding reductions to payout opportunities. In addition, improved disclosure would benefit shareholders, as a portion of long-term incentives also use undisclosed annual ROIC targets. Furthermore, concerns are raised with respect to the inordinate corporate aircraft-related perquisite provided to the CEO.

The Western Union Company	05/19/2022	Management	12	Yes	Advisory Vote to Ratify Named Executive Officers' Compensation	For	For	For	For	On balance, a cautionary vote FOR this proposal is warranted. Certain concerns are identified with respect to pandemic-related changes to the way annual and LTI goals are measured. In addition, greater disclosure surrounding strategic and individual goals and achievements under the annual incentive plan would benefit shareholders. However, there are mitigating factors for the year in review. Pay is elevated for the new CEO due to make-whole cash and equity awards granted to compensate him for awards he forfeited by leaving his former employer. In addition, annual and long-term awards are predominantly tied to objective performance metrics and goals appear reasonably rigorous, as STI financial metrics are growth-based and the relative TSR target and maximum goals require outperformance.

TuSimple Holdings Inc.	06/09/2022	Management	1	Yes	Elect Director Xiaodi Hou	For	Withhold	Withhold	Withhold	A vote FOR this proposal is warranted as it seeks the adoption of a policy that requires the board's chairman to be an independent director. Two major components at the top of every public company are the running of the board, and the executive responsibilities of running of the company's business. There should be a clear division between the head of the company, and the chair of the board. When there is no clear division of independence between the executive and board branches of a company, poor executive and/or board actions often go unchecked to the ultimate detriment of shareholders. WITHHOLD votes are warranted for incumbent directors Xiaodi Hou, Bradley (Brad) Buss, and Karen Francis given the board's failure to remove, or subject to a reasonable sunset requirement, the multi-class capital structure, the supermajority vote requirement to enact certain changes to the governing documents and the pop-up classified board structure, each of which adversely impacts shareholder rights. In the absence of a say-on-pay proposal on ballot, WITHHOLD votes are further warranted for Compensation Committee members Karen Francis and Michelle Sterling due to a pay-for-performance misalignment and the significant equity award vesting acceleration in connection with the former CEO's retirement. Bonuses lack sufficient disclosure and the sizable equity awards to the new CEO lack performance criteria. Additionally, the company provided an inordinate amount of aggregate legal, trust, and tax-planning perquisites to the CEO. A vote FOR Reed B.

Umpqua Holdings Corporation	01/26/2022	Management	1	Yes	Approve Merger Agreement	For	For	For	For	Shareholders may be concerned about the underperformance of UMPQ shares since the announcement, as well as the lack of a sale process. Nonetheless, the strategic rationale appears sound, as the combined company would be positioned as the second largest independent bank focused on the West coast, shareholders are receiving a premium, the deal is expected to generate \$135 million of annual cost synergies equal to 12.5 percent of the combined company's non-interest expenses, and the projected tangible book value dilution is a reasonable 5.9 percent, with an expected 2.6 year earn back period. On balance, in light of reasonable strategic rationale and financial metrics, support FOR the transaction is warranted.
Umpqua Holdings Corporation	01/26/2022	Management	2	Yes	Advisory Vote on Golden Parachutes	For	Against	Against	Against	A vote AGAINST the proposal is warranted. Although equity awards are double trigger and CEO O'Haver's legacy change-in-control provisions are reasonable, O'Haver will receive deferred cash compensation valued at \$5.25 million, effectively paying O'Haver's original cash severance. Further, the proxy does not disclose that payment requires a constructive or involuntary loss of employment. Given that O'Haver is expected to remain with the company post-closing, such payment is effectively deferred single trigger cash severance.

Universal Display Corporation	06/23/2022	Management	10	Yes	Advisory Vote to Ratify Named Executive Officers' Compensation	For	Against	Against	Against	Following last year's failed say-on-pay vote, the committee demonstrated adequate responsiveness to shareholder concerns. However, although disclosed changes to next year's compensation program will reduce the magnitude of LTI award values and increase the proportion of performance-based equity, significant concerns remain, particularly regarding the long-term incentive program. Neither forward-looking goals for PSU metrics nor performance results and vesting of closing-cycle awards are disclosed, precluding investor assessment of the link between pay and performance for equity awards of significant magnitude. Further, multiple NEOs received total compensation that was greater than total peer median CEO pay and, despite reductions to the value of FY22 LTI awards, one NEO will continue to receive total compensation equal to that of the CEO; investors may question the necessity of paying multiple executives at the level of a CEO. Lastly, the company maintains agreements that contain excise tax gross-up provisions. Accordingly, a vote AGAINST this proposal is warranted.

Valero Energy Corporation	04/28/2022	Management	13	Yes	Advisory Vote to Ratify Named Executive Officers' Compensation	For	Against	Against	Against	A vote AGAINST this proposal is warranted. The company continued to pay an excessive tax gross-up for the CEO's home/personal security benefits in the year under review. CEO pay increased in FY21, primarily driven by a larger equity grant. Long-term incentives are half performance based; however, one-third of performance equity can be earned after just a one-year performance period. Further, performance equity continues to target merely median TSR, a goal that is not considered to be particularly rigorous, and vesting is not capped if absolute TSR is negative. Lastly, investors are advised to monitor the new ESG modifiers in the long-term incentive program, which have resulted in maximum-level adjustments to both of the completed cycles where the modifiers have been applied.

Ventas Inc.	04/27/2022	Management	13	Yes	Advisory Vote to Ratify Named Executive Officers' Compensation	For	Against	Against	Against	A vote AGAINST this proposal is warranted given the following: * The company paid a sizable life insurance perquisite and associated tax gross-up to the CEO; * The company maintains an employment agreement with the CEO that contains problematic severance provisions, including a modified single trigger; and * There are structural concerns identified with the STI program changes for FY21, which were implemented due to the pandemic. The program appears largely discretionary, as half of awards were earned based on individual performance and the remainder was based on corporate goals that are mostly described in qualitative terms, with minimal disclosure of pre-set, quantified targets and results. The company's rationale for this structure is not considered compelling for FY21, and the structural concerns identified are not mitigated by discretionary reductions to STI payouts. LTI program concerns are also identified, as the relative TSR metrics target merely the index without a disclosed cap in the event of negative TSR and forward-looking goals for the remaining metrics are not disclosed. Lastly, NEOs received retention awards that lack performance-vesting criteria.

Although the annual bonus pool is funded formulaically, individual payouts are discretionarily determined, and the proxy lacks key disclosures, such as performance targets, the CEO's target opportunity, or per-metric weightings. The redesigned LTI program also raises structural and disclosure concerns. Half of performance awards are primarily earned based on relative TSR metrics that target merely the median, and the remaining half are primarily earned based on annual operational goals for which forward-looking targets are not entirely disclosed. Concerns over the use of an annual measurement period are not substantially mitigated by the existence of a three-year modifier, as the modifier may only reduce awards by up to 30 percent. Furthermore, the company paid an excessive amount for the CEO's automobile perquisites.

In response to last year's failed say-on-pay vote, the proxy included disclosure regarding feedback received from shareholders. However, disclosure of engagement efforts was incomplete and, more concerning, the pay program changes did not fully address the most prominent shareholder concern regarding the use of positive discretion to increase 2020 closing cycle LTI earnouts.Additionally, mitigated pay-for-performance misalignment exists for the year in review. The annual bonus was based on pre-set objective metrics with clear disclosure regarding the payout structure, targets, and actual performance, though a concern is noted regarding the use of an individual performance modifier, particularly given shareholder feedback regarding the use of positive discretion. The long-term incentive program is half performance-conditioned equity, which utilizes a multi-year performance period. Though forward-looking targets were not disclosed, these goals are disclosed retroactively at the end of the performance period. Lastly, the CEO received significant tax gross-ups related to relocation

Wells Fargo & Company	04/26/2022	Management	15	Yes	Advisory Vote to Ratify Named Executive Officers' Compensation	For	Against	Against	Against	Following last year's low support for say-on-pay, the committee engaged with shareholders, disclosed specific feedback received, and implemented pay program changes and incremental disclosure improvements. Accordingly, the committee has demonstrated sufficient responsiveness. While the increase in CEO performance year pay is directionally aligned with improved company performance, there are ongoing concerns regarding the impact of committee discretion in ultimately determining incentive payouts, and a lack of key disclosures under the total incentive assessment. Concerns around discretion are underscored by the fact that financial accomplishments highlighted for the FY21 performance year are not entirely consistent with those highlighted in the prior year without specific rationale provided. In addition, the proxy does not disclose quantified pre-set target or maximum goals, nor per-metric weightings, which inhibits investors' ability to assess the pay-for-performance linkage. Lastly, there are ongoing concerns regarding high base salaries for the CEO and other NEOs, and the target goal for the reintroduced relative metric under the LTI program is not considered particularly rigorous. Given these concerns, a vote AGAINST this proposal is warranted.

The STI program is entirely based on a pre-set financial metric and did not pay out in FY21, which largely aligns with recent company underperformance.

Wynn Resorts, Limited	05/05/2022	Management	5	Yes	Advisory Vote to Ratify Named Executive Officers' Compensation	For	Against	Against	Against	A vote AGAINST this proposal is warranted. The company has demonstrated poor responsiveness to low vote support for the 2021 say-on-pay proposal. Specifically, disclosure regarding shareholder feedback is limited and it is not clear that the company has made meaningful changes to the pay program to address shareholders' concerns. In addition, a pay-for-performance misalignment is underscored by the former CEO's high base salary and target STI opportunity, and goal disclosure issues. Further, while annual equity awards were 50 percent performance-conditioned, the newly appointed CEO received a large equity grant that was entirely time-based. Finally, disclosure surrounding transition payments made to the former CEO is not sufficient.

Xerox Holdings Corporation	05/19/2022	Management	10	Yes	Advisory Vote to Ratify Named Executive Officers' Compensation	For	Against	Against	Against	A vote AGAINST this proposal is warranted. The company failed to demonstrate adequate responsiveness to last year's say-on-pay vote, despite receiving significantly less than majority support. While the company engaged with investors following the annual meeting and disclosed specific shareholder feedback, the committee failed to implement changes to the compensation program so as to sufficiently address the concerns underlying the failed 2021 vote. Below-target payouts on both annual and long-term incentive awards were reasonably in line with performance for their respective performance periods, and although FY21 annual bonuses and equity awards utilize overlapping metrics, metrics are measured over differing performance periods and this overlap has been eliminated for FY22 awards, mitigating pay-for-performance concerns.

YUM! Brands, Inc.	05/19/2022	Management	14	Yes	Advisory Vote to Ratify Named Executive Officers' Compensation	For	Against	Against	Against	A vote AGAINST this proposal is warranted, due to significant concerns regarding pay program structure and one-time decisions. The STI payout formula allows for a large increase in total payouts based on the committee's subjective assessment of individual performance. The CEO also has a relatively high maximum STI opportunity that could allow for outsized bonuses. With respect to equity incentives, the entirety of the 2021-23 PSUs are based on a relative TSR metric that targets merely median performance. Moreover, the committee significantly increased the CEO's regular LTI grant value in the same year they awarded a sizable one-time equity award. The special award utilizes only a two-year measurement period and the metric is shared under the annual incentive program. Lastly, the company continues to provide an inordinate amount of personal use of corporate aircraft perquisite to the CEO.

Zimmer Biomet Holdings, Inc.	05/13/2022	Management	12	Yes	Advisory Vote to Ratify Named Executive Officers' Compensation	For	Against	Against	Against	A vote AGAINST the proposal is warranted. Although the annual pay program is reasonably performance-based, the company made a problematic one-time pay decision after the fiscal year end. In connection with a spinoff, performance equity granted in 2020 and 2021 was converted into time-vested equity, without disclosure of sufficient rationale. In addition, despite the 2020 performance equity tracking to not earn a payout due to underperformance, that grant was determined to vest at 50 percent of target, which undermines a pay-for-performance philosophy.

Zscaler, Inc.	01/05/2022	Management	5	Yes	Advisory Vote to Ratify Named Executive Officers' Compensation	For	Against	Against	Against	A vote AGAINST this proposal is warranted, driven by concerns surrounding the CEO's equity awards. While the awards are entirely performance-based, they utilize the same financial metrics as the annual incentive plan, are measured over a one-year performance period, and lack disclosure of both targets and actual performance. While the same target number of PSUs was granted as in the previous year, the CEO's FY21 equity grant value was substantially larger than the median total pay of both Public Fund Advisory Services' and the company's selected peers. Most other NEOs' equity awards were only subject to time-based vesting.

Artisan - Proxy Votes- July 2021 through June 2022 - Reasons for votes against ISS Recommendation							
Company	SR No	Agenda Description	Non-Voting Agenda	Mgmt Recommendation	ISS Recommendation	Investment Manager Vote	Rationale
							<p>We have reviewed both the ISS report and the Kinaxis board's response to this proposal around amending the share unit plan. We share the view of Kinaxis' board that the ISS comparator group is inappropriate for Kinaxis' business. ISS compares the share unit plan of Kinaxis only against Canadian companies, while in practice Kinaxis competes directly against U.S. and global technology companies both in terms of the market for their products in addition to their talent acquisition. Given that Kinaxis relies on recruiting, retaining, and incentivizing employees to compete effectively in their market, it is fair that they are benchmarked against a broader set of companies that are not included in the ISS evaluation.</p> <p>Kinaxis is seeking to expand its existing share unit equity pool reserve to accommodate the company's compensation needs as business momentum is accelerating. The expanded pool would help Kinaxis significantly increase the proportion of employees being issued equity on an annual basis from the current level of 10% to be more in line with their market peers. When ISS is evaluating Kinaxis' share unit plans they are effectively penalizing the company for not having raised capital since its IPO in 2014. Companies that have raised equity capital appear to have cheaper compensation plans because of their lower dilution rate, when in fact they have diluted shareholders in another more direct way.</p>
Kinaxis Inc.	3	Amend Share Unit Plan	No	For	Against	For	The share unit plans of Kinaxis are more shareholder-friendly than peers. Each company in the U.S. has a predominance

TimesSquare - Proxy Votes - January through June 2022 - Against ISS Recommendation					
Company	SR No	Agenda Description	ISS Recommendation	Investment Manager Vote	TSCM Rationale
Amplifon SpA	2.1	Fix Number of Directors	For	Against	TSCM's custom internal policy is to always vote AGAINST this type of proposal when there is no recommendation from management.
Amplifon SpA	3	Approve Remuneration of Directors	For	Against	This item warrants a vote AGAINST because: • Termination payments can be in excess of 24 months' pay. • The company can pay discretionary bonuses.
Befesa SA	8	Reelect Romeo Kreinberg as Non-Executive Director	Against	For	The nominee is a non-independent non-executive and sits on a key committee, which is inconsistent with typical market standards. (False) The nominee is a non-independent non-executive and the level of board independence is inconsistent with typical market standards. (False) The nominee is an executive and sits on a key committee, which is inconsistent with typical market standards. (False) The nominee is an executive and the level of board independence is inconsistent with typical market standards. (False) The nominee sits on boards at more than '6' public companies. (False) There have been questionable transactions with conflicts of interest in the past. (False) There are records of abuses against minority shareholder interests. (False) There are specific concerns about actions of the board such as criminal wrongdoing or breach of fiduciary responsibilities. (False) The company failed to disclose adequate information on this proposal. (False) The name, occupation or affiliation of the nominee has not been provided. (False) The nominee is a CEO and sits on more than '3' public company boards (withhold only at outside boards). (False) The nominee is an incumbent and attended less than 75% of the board and committee meetings that they were scheduled to attend during the previous fiscal year without a valid excuse (e.g. illness, work on behalf of the company, service to the nation). (False)
Befesa SA	9	Reelect Wolf Lehmann as Executive Director	For	Against	A vote AGAINST the non-independent nominees Natalia Latorre Arranz, Jose Dominguez Abascal, Wolf Lehmann and Asier Zarraonandia Ayo is warranted, because the board lacks independence. A vote AGAINST the reelection of chairman of the nominating committee Romeo Kreinberg is warranted because the board composition is insufficiently diverse.
Befesa SA	12	Reelect Asier Zarraonandia Ayo as Executive Director	For	Against	A vote AGAINST the non-independent nominees Natalia Latorre Arranz, Jose Dominguez Abascal, Wolf Lehmann and Asier Zarraonandia Ayo is warranted, because the board lacks independence. A vote AGAINST the reelection of chairman of the nominating committee Romeo Kreinberg is warranted because the board composition is insufficiently diverse.
Bodycote Plc	14	Approve Remuneration Policy	Against	For	A vote AGAINST this item is considered warranted for the following reasons: The Company's practice of localising base salary increases and pension contribution rates by country of residence, which remains out of line with market standards and investor expectations, have now been explicitly enshrined in the updated policy. This approach is also not accompanied by any rationale and not supported by disclosure that would help shareholders assess its appropriateness.
Cargojet Inc.	A	The Undersigned Certifies The Shares Represented by this Proxy Are Owned And Controlled By: FOR = Canadian, AGT = Non-Canadian Holder Authorized To Provide Air Service, ABN = Non-Canadian Who Is Not A Non-Canadian Holder Authorized To Provide Air Service.	Refer	Abstain	TSCM abstained to vote on this proposal due to citizenship status. The response is dependent upon a shareholder's citizenship or residency status in Canada.
Fortnox AB	12.1	Reelect Anna Frick as Director	Against	For	We will vote against the remuneration report but will deviate from ISS and our internal policy by voting FOR Anna Frick. We agree she is over boarded but most of the other boards are with very small companies, most with a market cap of less than \$100M. We will vote for, but engage with the board of Fortnox to push for her to resign from one of the smaller boards. The risk of following ISS and our policy is that we lose a very good director to the benefit of companies we are not shareholders of.

Interpump Group SpA	7	Authorize Share Repurchase Program and Reissuance of Repurchased Shares	Against	For	Item 7: ISS would like share buy backs to be limited to 10% of capital, while the Italian market authority limited it at 20%. Interpump has used treasury shares in the past to pay incentive programs on newly acquired companies and they have an impeccable record when it comes to integrating acquisitions. Also if a share based transaction would come to the table, TSCM would be supportive of that. In summary, using Italian regulatory guidelines and given the track record of Interpump, TSCM will voted with management.

momo.com, Inc.	6	Approve Amendments to Procedures Governing the Acquisition or Disposal of Assets	Against	For	ISS recommended against this item because they believe that the proposed increase of caps in securities investment may expose the company to unnecessary risks and because no compelling rationale was provided for such changes. TSCM's custom voting policy and practice emphasizes areas that we believe have the most direct impact on shareholder value creation. This focus compliments the significance we place on management quality as part of our investment process. When the appropriate management and structural mechanisms are in place, we are comfortable following management recommendations on resolutions where their more nuanced understanding of the item is beneficial, and where the item may have more limited impact on shareholder value over the near term. TOTVS SA	7	Amend Article 55	Against	For	ISS recommended against this item because shareholders are being asked to expand the potential beneficiaries of a broad indemnification provision, but lacks additional key information. TSCM's custom voting policy and practice emphasizes areas that we believe have the most direct impact on shareholder value creation. This focus compliments the significance we place on management quality as part of our investment process. When the appropriate management and structural mechanisms are in place, we are comfortable following management recommendations on resolutions where their more nuanced understanding of the item is beneficial, and where the item may have more limited impact on shareholder value over the near term. TSCM will continue to review its policy with regard to these resolutions, and may change them in the future if evidence of negative management practice arises.

Toyo Gosei Co., Ltd.	3	Appoint Alternate Statutory Auditor Hagiwara, Shoichi	Against	For	ISS recommended against this item because they believe that the outside statutory auditor nominee's affiliation with the company could compromise independence. Valmet Corp.	10	Approve Remuneration Report (Advisory Vote)	Against	For	<p>After engagement with Valmet, we feel we have a better understanding of Valmet's structuring of its long term awards program. Specifically:</p> <ul style="list-style-type: none"> <li>- The three-year vesting period for awards is consistent with best practice.</li> <li>-While Valmet aims to create long term incentives for value creation, it also wants to reward immediate progress toward long-term goals: "if we set a three-year goal, we want management to roll up its sleeves and start to work on it on day one." While this approach is philosophically different than what is considered best practice, we do not find it highly problematic.</li> <li>-Management points out that three-year plans often have shorter-term goals built in, making them very similarly structured to their package. There is a degree of "window dressing" performed in order to receive a favorable recommendation; we agree with this point.</li> <li>- Overall compensation aligns well with TSR.</li> <li>- We learned that the strategic performance measures in the long term plan are all tied to ESG, which we initially view favorably (while certainly questioning why this isn't disclosed and wanting more detail).</li> </ul> <p>The factors above tilt us in favor the remuneration package. That said, we do see significant room for Valmet improvement in key areas:</p> <ol style="list-style-type: none"> <li>1) Their remuneration report failed to get majority support last year, which should have signaled to management the need for more proactive communication ahead of the AGM this year.</li> <li>2) They should more proactively disclose the role ESG metrics play in executive comp. We are taking a leap of faith that these will incentivize favorable long-term actions, and would appreciate better understanding the plan.</li> </ol>
Verallia SA	7	Elect Mme Beatriz Peinado Vallejo as Representative of Employee Shareholders to the Board	Against	For	<p>TSCM's custom internal policy is to always vote in line with management for this type of proposal. ### TimesSquare - Proxy Votes - January through June 2022 Differing from ISS Recommendation

Company	SR No	Agenda Description	ISS Recommendation	Investment Manager Vote	TSCM Rationale
Verallia SA	10	Approve Compensation of Michel Giannuzzi, Chairman and CEO	Against	For	<p>A vote FOR approving compensation of Michel Giannuzzi, Chairman and CEO goes against our own TSCM policy, but in our opinion this action is merited for the following reasons:</p> <p>(1) One of ISS' main concerns is relative compensation vs the peer group in their analysis. However, that peer group is mainly comprised of packaging companies that we don't think are the best peers for the company. While we don't have a clear picture of how the CEO's compensation compares vs peers, we're uncomfortable with voting against a high-performing CEO on a *binding* resolution based on an inadequate peer group.</p> <p>(2) Michel's comp jumped 412% in 2021- mainly through the addition of EUR3.2 million in L-T incentives. We note that these come after below-peer comp and not earning any such incentives since 2019. 80% of comp remains performance based, which is a favorable change in mix. Comp over the past two years was more heavily weighed toward non performance-based pay.</p> <p>(3) Shareholder support for compensation for the past two years has been over 90% - this is not a company with a history of problematic pay practices. Also, we agree with ISS' assessment that compensation practices have followed an improving trend.</p> <p>(4) We agree with ISS in that some of the compensation practices fall short of best practice, but view these as areas of engagement with the company versus an Against vote at this time. Areas for improvement include: disclosure of vesting levels for all criteria in the LTIP plan, and disclosure as to whether the CEO/Chairman will still benefit from the full LTIP 2021-2022 and 2021-2023 when becoming the company's Chairman.</p> <p>(5) ISS flags that the granting of the 2nd tranche LTIP was disproportionate to performance criteria and share price. This is true: the company achieved 70.6% of the established goal during the performance period, yet it granted the CEO 87% of the shares available for award, thereby raising LTIP comp. While not desirable, we do note this grant comes after no granting of long-term incentives for the past two years.</p> <p>(6) There are elements of the comp structure that we view favorably. The performance conditions in the LTI program include EBITDA, emission reductions, gender diversity improvements, ROCE, and relative TSR performance. We find these conditions to contain a good mix of near and long-term value producing incentives.</p> <p>(7) Overall, the company's corporate governance profile is solid, and indicates a good</p>
Verallia SA	25	Authorize Capital Increase of up to 10 Percent of Issued Capital for Contributions in Kind	Against	For	<p>Item 23 warrants a vote FOR as the maximum discount allowed remains in line with the acceptable limit of 10 percent.</p>

ACNB Corporation	05/03/2022	Management	Yes	3	Advisory Vote to Ratify Named Executive Officers' Compensation	For	For	Against	Against	A vote AGAINST this proposal is warranted because: * The company does not disclose any pre-set metrics and goals for the CEO's bonus awards; * The company maintains employment agreements with certain executives that provide for excise tax gross-ups and modified single-trigger cash severance; and * Equity awards provide for automatic accelerated vesting upon a change in control.	Yes	Yes	No
Acuity Brands, Inc.	01/05/2022	Management	Yes	12	Advisory Vote to Ratify Named Executive Officers' Compensation	For	Against	Against	Against	A vote AGAINST this proposal is warranted. The company failed to demonstrate adequate responsiveness to last year's say-on-pay vote, despite receiving less than majority support for the second year in a row. While the company engaged with investors following the annual meeting, shareholders' feedback is disclosed only in vague terms. In addition, it is not clear that the company has made any changes to address the concerns underlying the failed 2021 vote. Pay-for-performance concerns are mitigated in light of recent improvements to the company's incentive programs. The weight of the individual performance component in the annual incentive program was reduced from 50 percent to 20 percent, and a concerning secondary funding mechanism was removed. Further, the grant date value of the CEO's equity awards was lower in 2021 compared to 2020. Finally, beginning in 2022 the CEO will participate in the ordinary long-term incentive program.	Yes	No	No

Adverum Biotechnologies, Inc.	06/10/2022	Management	Yes	5	Advisory Vote to Ratify Named Executive Officers' Compensation	For	For	For	For	A vote FOR this proposal is warranted given that the company demonstrated sufficient responsiveness to last year's low say-on-pay vote. In addition, pay and performance are reasonably aligned at this time.	No	No	No

Affiliated Managers Group, Inc.	05/27/2022	Management	Yes	9	Advisory Vote to Ratify Named Executive Officers' Compensation	For	For	For	For	A vote FOR this proposal is warranted. The newly implemented total incentive assessment scorecard is predominantly based on quantified and objective goals with disclosed targets. While the significant number of metrics and lack of disclosed threshold goals warrants continued monitoring, the new scorecard provides significantly more transparency into pay decisions compared to the separate STI and LTI assessments utilized in prior years, each of which relied heavily on committee discretion. Transparency is further enhanced by the introduction target incentive opportunities and pre-set formula for cash and equity awards. In addition, LTI awards are majority based on clearly disclosed multi-year goals, target and maximum LTI goals increased, and the percentage of the award that vests for threshold performance was reduced without a reduction in the threshold goal. Continued monitoring of the pay program structure is warranted, given the significant changes in incentive program structure and metric selection.	No	No	No

Agios Pharmaceuticals, Inc.	06/21/2022	Management	Yes	4	Advisory Vote to Ratify Named Executive Officers' Compensation	For	For	For	For	A vote FOR this proposal is warranted, with caution. Annual incentives are primarily based on pre-set, objective metrics, a concern is noted regarding target setting, as the revenue goal was set below the prior year's actual performance with a corresponding reduction in a target bonus opportunity for executives. Furthermore, the strategic goal targets are not clearly disclosed. These issues are compounded as the executive chairman's base salary and target bonus opportunity each exceed the CEO's. These concerns are mitigated for the year in review, however. Although the mix of performance-contingent equity was reduced 10 percentage points in 2021, LTI awards remained majority performance-based and require a long-term improvement in book value and relative TSR outperformance for target payout. Moreover, performance-contingent equity will revert to a 75 percent mix for the 2022 LTI award, and a closing cycle performance equity award vested below target, which was in line with company performance. Continued monitoring of STI goal setting and the executive chairman's pay are warranted.	No	No	No

Air Transport Services Group, Inc.	05/25/2022	Management	Yes	11	Advisory Vote to Ratify Named Executive Officers' Compensation	For	For	For	For	A vote FOR this proposal is warranted, with caution. Although the compensation committee made certain adjustments to the financial results with respect to the three-year performance award ending in FY2021, such concern is mitigated at this time given that the final payout was earned at a threshold level. In addition, CEO pay is reasonably aligned with performance.	No	No	No
Airgain, Inc.	06/22/2022	Management	Yes	5	Advisory Vote to Ratify Named Executive Officers' Compensation	For	Against	Against	Against	A vote AGAINST this proposal is warranted due to an unmitigated pay-for-performance misalignment. Akero Therapeutics, Inc.	06/02/2022	Management	Yes	4	Advisory Vote to Ratify Named Executive Officers' Compensation	For	For	For	For	A vote FOR this proposal is warranted, with caution. Although equity awards were delivered entirely in the form of stock options which are considered to be more strongly-performance-based at clinical-stage biotechnology companies than in other industries as they are less susceptible to outside market influences, concerns are raised with respect to the magnitude of CEO pay. Specifically, CEO pay remains elevated due to sizable equity awards which the company grants every year. In addition, while half of the stock options will vest only upon the achievement of certain milestones, concerns are raised by the lack of clarity regarding the milestones.	No	No	No

Alteryx, Inc.	05/25/2022	Management	Yes	5	Advisory Vote to Ratify Named Executive Officers' Compensation	For	Against	Against	Against	The company introduced performance-conditioned equity awards, which is a positive change, but there are noted design and magnitude concerns. The CEO's total equity award value was large, driving relatively large total pay for the year in review, on the backdrop of poor short- and long-term TSR performance. The new performance awards utilize a relatively short two-year period and share a metric in the STI program. There are also concerns around the disclosure of goals for sizable sign-on equity awards, which utilized a short-term measurement period. Moreover, while the STI program is predominantly based on a financial metric, there is poor disclosure around individual performance factors. In light of these factors, a vote AGAINST this proposal is warranted.	Yes	No	No
Altra Industrial Motion Corp.	04/26/2022	Management	Yes	10	Advisory Vote to Ratify Named Executive Officers' Compensation	For	For	For	For	A vote FOR this proposal is warranted as no significant concerns were identified and pay and performance are reasonably aligned at this time.	No	No	No
Amalgamated Financial Corp.	04/27/2022	Management	Yes	14	Advisory Vote to Ratify Named Executive Officers' Compensation	For	For	For	For	A vote FOR this proposal is warranted as pay-for-performance concerns are mitigated at this time. CEO pay was elevated due to a substantial equity award and a sign-on bonus granted in connection with her hiring. Further, annual incentives were based primarily on pre-set objective measures and the company's equity compensation program provides for equity awards that are 50 percent performance-based.	No	No	No
Ambac Financial Group, Inc.	05/24/2022	Management	Yes	8	Advisory Vote to Ratify Named Executive Officers' Compensation	For	Against	Against	Against	A vote AGAINST this proposal is warranted due to a pay-for-performance misalignment. Although the annual bonus plan appears to be reasonably linked to quantifiable performance measures, concerns persist regarding the directional misalignment between realizable pay and three-year TSR and the size of the CEO's equity awards, which was more than double the median total pay of Public Fund Advisory Services-selected peer CEOs. Ambarella, Inc.	06/07/2022	Management	Yes	5	Advisory Vote to Ratify Named Executive Officers' Compensation	For	For	Against	Against	A vote AGAINST this proposal is warranted as the company maintains change-in-control agreements that contain excise tax gross-up provisions.	Yes	Yes	No

Aspen Aerogels, Inc.	06/02/2022	Management	Yes	4	Advisory Vote to Ratify Named Executive Officers' Compensation	For	For	For	For	Concerns are highlighted regarding the limited disclosure of bonus plan goals as well as the discretion applied to increase bonus payouts. The main driver of the year-over-year increase in CEO pay, however, was the grant of one-time performance-based stock awards. Such awards are subject to rigorous stock price goals and sufficiently mitigate pay-for-performance concerns at this time. As such, support FOR this proposal is warranted.	No	No	No
