## **B. NEW BUSINESS**

### **1. Proxy Voting**

#### **a. Proxy Voting Reports**

Proxy voting records of public equity managers for December 31, 2021

Retirement Administrator Jeff Wickman presented proxy voting reports for equity managers as of December 31, 2021. Trustee Silberstein expressed appreciation to staff for the reports. He pointed out that managers who vote MCERA's proxies do not provide the reasons for the proxy votes in their reporting. The reasons for MCERA's proxy votes for the Dimensional Fund Advisors (DFA) and State Street Global Advisors (SSGA) accounts are provided by Institutional Shareholder Services (ISS) in its reports.

Trustee Silberstein suggested asking these managers to provide an explanation for why their votes don't align ISS recommendations. Mr. Wickman said he would reach out to those managers. Chair Cooper asked if other Committee members support the suggestion, and he and Trustee Gladstern voiced support for this course of action.

#### **b. Proxy Voting Reports – Executive Compensation**

Review and discuss the ISS executive compensation proxy voting reports for the Dimensional Fund Advisors and State Street Global Advisors portfolios

Mr. Wickman presented proxy voting reports on executive compensation for the DFA and SSGA accounts that are derived from the ISS platform. Trustee Silberstein was appreciative of the focus on executive compensation. He pointed out that proxy votes are following the Public Fund Policy with respect to Boards of Directors being independent of management and having executive compensation be related to company performance. Trustee Gladstern observed the reports provide more information on how MCERA investments work.

### **2. Governance Risk Report – (ISS) – Jack Ferdon**

Review and discuss the ISS quarterly Risk Assessment Report

Jack Ferdon, Senior Associate, Client Service and Consultants, with Institutional Shareholder Services, reviewed the ISS Governance Risk Report for the first quarter of 2022. The report analyzes proxy voting data and holdings for the Dimensional Fund Advisors and State Street Global Advisors portfolios.

The report begins with a list of companies falling in the lower third of the ISS Quality Score. Then votes against management proposals are analyzed across categories; among its managers, MCERA has the highest percentage of these votes. Mr. Ferdon reported that MCERA often voted with shareholder proposals. These included proposals that Apple conduct an audit of employee civil rights, that Costco report on its energy emissions, and

For consideration at October Committee meeting

that Disney report on employee pay gaps across race and gender. Mr. Ferdon stated there are increasing numbers of shareholder proposals along these themes.

Mr. Ferdon discussed the three companies with contested meetings during the quarter. Huntsman Corporation prevailed over a dissident who was not able to win a board seat. MCERA supported a dissident who won one board seat at Griffon Corporation. Finally, MCERA supported management nominees who won seats on the Board of Directors at Lee Enterprises, Incorporated.

Trustee Gladstern asked if performance of companies with contested meetings can be tied to their governance. Mr. Wickman replied he would look to add this information for the next Committee meeting. The Administrator had provided the Committee with a list showing which portfolios the companies on the Quality Score list are in. Trustee Silberstein said he appreciates this supplemental report, noting many of the companies are in the SSGA Russell 1000 Index fund. He further pointed out that most annual meetings take place in the spring and will be on the next proxy reports. In conclusion, Mr. Wickman said staff would look to provide details on items voted on and performance information at the next meeting. Chair Cooper agreed this information would be helpful.

### 3. New Policies

#### a. MCERA Funding Policy

Consider and discuss a potential standalone Funding Policy for MCERA

Mr. Wickman said he is bringing to the Committee two versions of a proposed standalone MCERA Funding Policy for consideration. The first version had been presented to the Committee in October of 2021 and includes one edit referencing the Experience Study made by the Committee. Following that meeting, at the November 2021 Board meeting further, more lengthy revisions to the draft policy were proposed. This second version adds details from Appendix B of the Actuarial Valuation Report to the policy.

The Administrator recommended that the Committee adopt the original version of the Funding Policy.

It was M/S Gladstern/Jones to recommend that the Board adopt the MCERA Funding Policy presented to the Committee in October 2021 with the changes recommended by the Committee as presented. The motion was approved by a vote of 5-0 as follows:

AYES:	Cooper, Gladstern, Jones, Silberstein, Tomlin
NOES:	None
ABSTAIN:	None
ABSENT:	None

For consideration at October Committee meeting

4. Existing Policies – Standard Review with Proposed Updates

a. Policy Regarding Adoption of Actuarial Economic Assumptions (ACTION)

Consider possible recommendation to Board on updates to policy

Mr. Wickman presented the updated Policy Regarding Adoption of Actuarial Economic Assumptions for consideration by the Committee. He explained there were no changes in economic assumptions, just an update to the effective date of the economic assumptions.

It was M/S Silberstein/Jones to adopt updates to the Policy Regarding Adoption of Actuarial Economic Assumptions as presented. The motion was approved by a vote of 5-0 as follows:

AYES: Cooper, Gladstern, Jones, Silberstein, Tomlin

NOES: None

ABSTAIN: None

ABSENT: None

5. Existing Policies – Standard Review without Proposed Updates

Mr. Wickman stated staff recommends the Committee accept the review of the policies listed below.

It was M/S Silberstein/Jones to accept the review of the policies listed in Agenda Items B.5.a-c below. The motion was approved by a vote of 5-0 as follows:

AYES: Cooper, Gladstern, Jones, Silberstein, Tomlin

ABSENT: None

a. Policy Regarding Annual Affirmation as to Key Policies (ACTION)

b. Statement of Investment Policy Regarding Divestment (ACTION)

6. Next Committee Meeting

Consider and discuss agenda items for future meetings

Chair Cooper invited Committee members to suggest topics for future meetings. Mr. Wickman said staff will be considering whether to bring potential changes to the Policy Regarding Compensation Earnable and Pensionable Compensation Determinations to a future meeting for consideration.

For consideration at October Committee meeting

There being no further business, Chair Cooper adjourned the meeting at 9:36 a.m.

Acuity Brands, Inc.	01/05/2022	Management	12	Yes	Advisory Vote to Ratify Named Executive Officers' Compensation	For	Against	Against	Against	A vote AGAINST this proposal is warranted. The company failed to demonstrate adequate responsiveness to last year's say-on-pay vote, despite receiving less than majority support for the second year in a row. While the company engaged with investors following the annual meeting, shareholders' feedback is disclosed only in vague terms. In addition, it is not clear that the company has made any changes to address the concerns underlying the failed 2021 vote.Pay-for-performance concerns are mitigated in light of recent improvements to the company's incentive programs. The weight of the individual performance component in the annual incentive program was reduced from 50 percent to 20 percent, and a concerning secondary funding mechanism was removed. Further, the grant date value of the CEO's equity awards was lower in 2021 compared to 2020. Finally, beginning in 2022 the CEO will participate in the ordinary long-term incentive program.

Agios Pharmaceuticals, Inc.	06/21/2022	Management	4	Yes	Advisory Vote to Ratify Named Executive Officers' Compensation	For	For	For	For	A vote FOR this proposal is warranted, with caution. Annual incentives are primarily based on pre-set company performance goals. In addition, the committee added performance criteria to the FY21 equity award with an increased performance-based portion in the FY22 award; these awards also utilize a multi-year performance period. Pay-for-performance misalignment concerns are additionally mitigated by the CEO's realizable compensation, which consists primarily of options that are underwater. However, while PSUs comprised a portion of NEOs' 2021 equity awards, the majority of long-term awards lack performance conditions and continued monitoring of this aspect of the compensation program is warranted.

Air Lease Corporation	05/04/2022	Management	11	Yes	Advisory Vote to Ratify Named Executive Officers' Compensation	For	For	For	For	A vote FOR this proposal is warranted, with caution. Though annual incentives are primarily based on pre-set, objective metrics, a concern is noted regarding target setting, as the revenue goal was set below the prior year's actual performance with a corresponding reduction in a target bonus opportunity for executives. Furthermore, the strategic goal targets are not clearly disclosed. These issues are compounded as the executive chairman's base salary and target bonus opportunity each exceed the CEO's. These concerns are mitigated for the year in review, however. Although the mix of performance-contingent equity was reduced 10 percentage points in 2021, LTI awards remained majority performance-based and require a long-term improvement in book value and relative TSR outperformance for target payout. Moreover, performance-contingent equity will revert to a 75 percent mix for the 2022 LTI award, and a closing cycle performance equity award vested below target, which was in line with company performance. Continued monitoring of STI goal setting and the executive chairman's pay are warranted.

Amalgamated Financial Corp.	04/27/2022	Management	14	Yes	Advisory Vote to Ratify Named Executive Officers' Compensation	For	For	For	For	A vote FOR this proposal is warranted as pay-for-performance concerns are mitigated at this time. CEO pay was elevated due to a substantial equity award and a sign-on bonus granted in connection with her hiring. Further, annual incentives were based primarily on pre-set objective measures and the company's equity compensation program provides for equity awards that are 50 percent performance-based.

Arlo Technologies, Inc.	06/24/2022	Management	1	Yes	Elect Director Ralph E. Faison	For	Withhold	Withhold	Withhold	WITHHOLD votes are warranted for incumbent director nominees Ralph Faison and Jocelyn Carter-Miller given the board's failure to remove, or subject to a sunset requirement, the classified board and the supermajority vote requirement to enact certain changes to the governing documents, each of which adversely impacts shareholder rights. WITHHOLD votes are warranted for incumbent compensation committee members Ralph Faison and Jocelyn Carter-Miller due to an unmitigated pay-for-performance misalignment. The CEO received a sizable retention grant in addition to his annual LTI award, resulting in significantly elevated pay. Further concerns exist regarding the structure of performance-based equity awards and a lack of disclosure surrounding annual and long-term performance targets and achievements.

The magnitude of CEO pay warrants continued close monitoring, although some mitigating weight is placed on the company's difficulty in selecting comparable peers. While investors would benefit from disclosure of STI threshold and maximum goals, the annual program is predominantly based on objective goals that appear reasonably rigorous. Further, the majority of LTI awards are earned based on clearly disclosed multi-year goals, with a relative TSR metric that targets outperformance and a cap on vesting in the event absolute TSR is negative.

					The 2021 say-on-pay proposal received low support from shareholders. As such, the compensation committee demonstrated limited responsiveness following last year's low say-on-pay support. Accordingly, a cautious vote FOR this proposal is warranted.

The compensation committee demonstrated poor responsiveness to shareholder concerns following last year's low say-on-pay support. In addition, the pay-for-performance misalignment is not mitigated given that there is poor disclosure under the bonus plan and equity awards lack disclosed performance criteria. Concerns are also raised with respect to the excessive severance provision in the CEO's employment agreement, as well as the provision for single-trigger vesting of equity upon a change in control.

Although the annual and long-term programs are predominately performance-based, there are concerns surrounding the lack of disclosed forward-looking goals for retention and integration awards granted to two NEOs in connection with a recent merger. In addition, although the weighting of PSUs significantly increased year-over-year, the increase in PSU weighting was effectuated through a significant increase to the CEO's target LTI opportunity, which comes amid long-term TSR underperformance and for which a compelling rationale is not disclosed in the proxy. In addition, the company entered into a problematic consulting agreement with the vice chair, which provides for a sizable consulting fee in exchange for a minimal monthly work requirement.

Cargurus, Inc.	06/07/2022	Management	5	Yes	Advisory Vote to Ratify Named Executive Officers' Compensation	For	Against	Against	Against	A vote AGAINST this proposal is warranted. The pre-set goals and actual results are not disclosed for the annual incentive, which impedes shareholders' ability to assess the merit of payouts and rigor of goals. In addition, no rationale for the payout structure of the annual bonus was disclosed, which may guarantee certain payments to executives if full-year performance targets are not met. Finally, the committee's decision to remove the performance vesting conditions for equity awards is viewed as egregious. This concern is compounded when considering the CEO's 2021 awards were front-loaded, essentially locking-in his awards to be entirely time-based for the covered four-year period.

Cass Information Systems, Inc.	04/19/2022	Management	5	Yes	Advisory Vote to Ratify Named Executive Officers' Compensation	For			For	A vote FOR this proposal is warranted, with caution. The CEO's total pay is of significant magnitude, largely due to continuous increases to base salary, which has a ratcheting effect on the target bonus opportunity as well as the LTI grant value. However, both the annual bonus as well as closing cycle PSUs were earned below target for the year in review, which is in line with overall company performance. Furthermore, the STI was based entirely on a pre-set, financial metric and LTI awards are majority performance-based with forward-looking goals. Continued monitoring of the pay program is warranted to ensure that pay outcomes align with company performance.

Centennial Resource Development, Inc.	04/27/2022	Management	5	Yes	Advisory Vote to Ratify Named Executive Officers' Compensation	For	For	For	For	A vote FOR this proposal is warranted. Positive changes to the annual incentive program in FY21 included the introduction of a more formulaic approach to annual incentives, with a majority of annual incentives based on quantitative metrics. The proxy also demonstrated improved program disclosure for qualitative metrics and above-target payouts under the program appear aligned with the company's strong performance in FY21. A majority of the CEO's long-term incentives are also performance-based and the most recent vesting cycle was forfeited, in line with TSR underperformance over the period.

Cowen Inc.	06/23/2022	Management	10	Yes	Advisory Vote to Ratify Named Executive Officers' Compensation	For	Against	Against	Against	The compensation committee demonstrated sufficient responsiveness to a certain degree following last year's low say-on-pay support. However, a vote AGAINST this proposal is warranted due to an unmitigated pay-for-performance misalignment. The CEO's relatively high pay consists of a high base salary, an outsized discretionary bonus, and equity awards which were primarily time-vesting. While it is recognized that the equity awards are deferred and based on prior year performance under the bonus program, such program is largely discretionary and there is no specific rationale regarding the size of the deferred awards.

Deciphera Pharmaceuticals, Inc.	06/23/2022	Management	4	Yes	Advisory Vote to Ratify Named Executive Officers' Compensation	For	Against	Against	Against	A vote AGAINST this proposal is warranted. Although the annual incentive is based on pre-set goals, objectives are described in primarily qualitative terms with limited disclosure of achieved results. Further concerns are raised by the entirely time-vesting long-term incentive awards. Although stock options for clinical-stage biopharmaceutical companies may be considered more performance-conditioned compared to other industries, many investors may expect the company to grant a portion of awards in performance shares given both that the company has reported positive revenue for several years and the CEO receives equity awards based on an above-median benchmark.

In addition, half of the equity awards are performance-conditioned and utilize a multi-year performance period. Shareholders should note that the relative metric utilized for the performance awards targets merely median performance and it does not appear payouts are capped in the event absolute TSR is negative over the performance period.

Eagle Bancorp, Inc.	05/19/2022	Management	12	Yes	Advisory Vote to Ratify Named Executive Officers' Compensation	For	Against	Against	Against	The STI and half of LTI awards are based on objective metrics, and the LTI utilizes multi-year goals that target outperformance. However, there are unmitigated concerns regarding the CEO's high target and maximum STI opportunities and STI program disclosure. The CEO's target STI opportunity is considerably larger than the median opportunity of peers, and her large maximum payout under the program contributed to a quantitative pay-for-performance misalignment. Further, the proxy does not clearly disclose maximum STI goals on a per-metric basis, or how NEOs can achieve payouts above "target plus" opportunities, which is particularly concerning given that maximum payouts were earned in 2021 even though results for three of five metrics were achieved below target. Lastly, for the LTIP, the proxy does not disclose a vesting cap for negative absolute TSR. In light of the concerns noted above, a vote AGAINST this proposal is warranted.

EVO Payments, Inc.	06/08/2022	Management	4	Yes	Advisory Vote to Ratify Named Executive Officers' Compensation	For	For	For	For	While the CEO's short- and long-term incentives are primarily performance-based, concerns are raised with the CEO's relatively high bonus opportunity and the long-term performance goals not being particularly rigorous given that they only required 10 percent stock price appreciation over a performance period of five years. In addition, the other NEOs received solely time-vesting awards. However, these concerns are somewhat mitigated given that in 2022 half of all NEO awards will be performance-based, and the awards will be subject to more rigorous performance goals. As such, a cautionary vote FOR this proposal is warranted.

Flowserve Corporation	05/12/2022	Management	10	Yes	Advisory Vote to Ratify Named Executive Officers' Compensation	For	Against	Against	Against	A vote AGAINST this proposal is warranted. The company's regular annual and long-term incentive programs appear to be strongly performance-based, with the entire annual incentive and half of the long-term incentive tied to objective and quantifiable performance measures, and below-target payouts under both programs were aligned with the company's performance. However, one-time retention equity grants made to all of the NEOs in FY21 raise significant concerns given that none of the grants are tied to performance conditions, and the grants were in addition to regular LTI awards. Further, the CEO's retention grant significantly elevated his total pay at a time when performance lagged comparators and shareholders experienced losses.

G-III Apparel Group, Ltd.	06/09/2022	Management	13	Yes	Advisory Vote to Ratify Named Executive Officers' Compensation	For	Against	Against	Against	A vote AGAINST this proposal is warranted. Following last year's failed say-on-pay vote, the committee demonstrated only limited responsiveness to shareholder concerns, with changes to the compensation program failing to address the major shareholder concerns regarding the structure and magnitude of annual bonuses and total compensation for CEO Goldfarb and NEO Aaron. Further concerns are raised by the pay program for the year in review. Although the committee implemented formulaic bonuses for two NEOs, disclosure of metric goals and payout formulas was incomplete, and CEO Goldfarb and NEO Aaron earned significantly outsized annual bonuses paid partially in fully-vested stock subject to relatively short holding periods. Although the committee modified FY22 long-term incentive awards from entirely time-vesting to half performance-based, forward-looking metrics were not disclosed. Lastly, concerns remain with respect to the large life insurance perquisite provided to the CEO.

Shareholders should note that the compensation committee determined to remove the 2021 AIP's gateway performance metric in light of raw material and logistic costs due to inflation and the global pandemic, but capped bonus payouts at 40 percent of target. In addition, the company accelerated bonus payments and payout of equity awards to take advantage of tax planning opportunities, in anticipation of the company's acquisition later this year. However, they are subject to repayment if the NEOs' employment is terminated for cause/without good reason prior to the date that these otherwise would have been settled.

Voting Policy Rationale											
Gentherm Incorporated	06/02/2022	Management	11	Yes	Advisory Vote to Ratify Named Executive Officers' Compensation	For	For	For	For	A cautionary vote FOR this proposal is warranted. The company reverted to its pre-pandemic annual incentive program. Although the adjustments caused an overachievement, the compensation committee exercised its discretion to limit the payout to target level. In addition, pay and performance are reasonably aligned at this time.

Genworth Financial, Inc.	05/19/2022	Management	11	Yes	Advisory Vote to Ratify Named Executive Officers' Compensation	For	For	For	For	A vote FOR this proposal is warranted. There are some concerns regarding STI program structure, LTI goal rigor and severance disclosure, which warrant continued monitoring. However, pay and performance are reasonably aligned for the year in review. In addition, the CEO's equity awards were delivered entirely in performance shares earned based on clearly disclosed multi-year goals.

Glaukos Corporation	06/02/2022	Management	4	Yes	Advisory Vote to Ratify Named Executive Officers' Compensation	For	For	For	For	A vote FOR this proposal is warranted, with caution. The CEO's annual incentive awards were entirely based on pre-set objective goals, although the proxy does not disclose the threshold and maximum goals for the operating expense metric. Half of the CEO's long-term incentive awards were performance based. The company introduced a multi-year measurement period with the 2021 PRSUs, where awards are earned based on receipt of regulatory approvals for designated pipeline products within a four-year period. Concern exists that half of the 2021 PRSUs were earned less than one year from date of grant. However, the grant-date value of the portion of the award that vested is not excessive, and the earned awards are subject to additional vesting criteria. Additionally, previously granted PRSUs were earned below target, and realizable pay outcomes aligned to shareholder returns over the most recent three-year period. Nevertheless, continued monitoring of the pay programs is warranted.

Global Blood Therapeutics, Inc.	06/14/2022	Management	4	Yes	Advisory Vote to Ratify Named Executive Officers' Compensation	For	For	For	For	A vote FOR this proposal is warranted, with caution. The committee was sufficiently responsive to last year's failed say-on-pay vote, committing not to grant off-cycle LTI awards to NEOs unless there are extraordinary circumstances, and implementing additional changes for the 2021 and 2022 compensation plans. However, continued monitoring of pay levels is warranted, to ensure equity values normalize, and also with regard to the annual-cycle long-term incentive awards, which were entirely time based, but are expected to include a performance-based component in 2022.

Shareholders expressed a certain level of dissatisfaction with respect to the company's executive compensation practices. While the company did not disclose shareholder engagement efforts or their specific feedback, the company amended the pay program to address concerns reflected in the low vote result. However, several other concerns are highlighted with respect to the company's compensation practices. Equity award arrangements provide for automatic accelerated vesting upon a change-in-control, the company has legacy arrangements with Chairman W. Turner and CEO J. Turner that provide for a severance payment that exceeds three-times the sum of an executive's base salary and target bonus (the upper parameter of reasonable amounts under current market norms), the company does not disclose a sufficient compensation clawback policy, sufficient stock ownership guidelines, or holding period requirements for executives, and the company does not condition the vesting of long-term awards on achievement of performance goals.

Green Dot Corporation	05/19/2022	Management	13	Yes	Advisory Vote to Ratify Named Executive Officers' Compensation	For	For	For	For	A cautionary vote FOR this proposal is warranted. The compensation committee demonstrated sufficient responsiveness to a certain degree to shareholder concerns following last year's low say-on-pay support. Concerns are raised with the executive compensation program, such as discretionary bonuses being paid when the gateway metric was not achieved, performance-based awards utilizing annual measurement periods, and the CEO's one-time award being entirely time-vesting. These concerns are somewhat mitigated given that no one-time awards will be made (except for new hires and promotions), future performance-based awards will incorporate a three-year performance period, and the 2022 bonus program does not appear to allow for upwards discretion.

Griffon Corporation	02/17/2022	Management	6	Yes	Advisory Vote to Ratify Named Executive Officers' Compensation	For	Do Not Vote	Do Not Vote	Do Not Vote	A vote AGAINST the proposal is warranted. Following a third consecutive low say-on-pay vote result, the company engaged with shareholders and disclosed certain feedback received from these discussions. However, the only disclosed change to the pay program was relatively minor and, given the year-over-year decline in support, investors likely expected a more robust response.Additionally, pay-for-performance concerns persist within the executive pay program. Although there are positive features within the short- and long-term programs, the magnitude of the annual long-term compensation to the CEO is outsized compared to peers. On top of high annual pay, the company granted the CEO a sizeable one-time award that consists entirely of time-vested equity.

Harley-Davidson, Inc.	05/12/2022	Management	11	Yes	Advisory Vote to Ratify Named Executive Officers' Compensation	For	Against	Against	Against	A vote AGAINST this proposal is warranted. The committee made changes to compensation programs in response to investor feedback; however, concerns regarding the structure and magnitude of pay remain, particularly as the CEO's compensation nearly doubled year-over-year. The CEO's base salary remained high, even after the anticipated reduction for FY22. However, more concerning were actions taken in the long-term incentive program. The committee reduced the performance period for annual cycle long-term incentives from a multi-year measurement period to annually measured performance goals, limiting the long-term focus of the program. Further, the CEO's RSUs vest after just one year and his performance option grant does not require that the stock price achievements be sustained beyond the initial 10-day average.

Heritage Commerce Corp.	05/26/2022	Management	12	Yes	Advisory Vote to Ratify Named Executive Officers' Compensation	For	Against	Against	Against	A vote AGAINST this proposal is warranted. Following last year's low say-on-pay vote result, the committee did not disclose any shareholder engagement efforts, feedback received, or meaningful changes to the compensation program. As such, the compensation committee demonstrated poor responsiveness to shareholder concerns underlying the low vote result. In addition, the company does not condition vesting of long-term awards on achievement of performance goals, equity award arrangements provide for automatic accelerated vesting upon a change-in-control, and the company has legacy arrangements with certain executives that provide for CIC excise tax gross-up payments.

InterDigital, Inc.	06/01/2022	Management	8	Yes	Advisory Vote to Ratify Named Executive Officers' Compensation	For	Against	Against	Against	A vote AGAINST this proposal is warranted. Although the CEO's new hire and annual LTI awards are majority performance-based, there are significant concerns regarding equity award structure and disclosure. The CEO's new hire performance awards are based on undisclosed milestones that may be achieved at any point through 2026, and 150 percent of the target award was deemed earned merely six months after grant. Similar disclosure concerns are identified in the annual LTI program, and the majority of other NEOs' equity awards are time-based. Further, the company made adjustments to outstanding equity awards in the final year of the interim measurement period, resulting in near-target vesting, which marks at least the second time in three years in which outstanding awards have been adjusted. In addition, only 20 percent of the STI program is based on quantified financial metrics with disclosed threshold, target and maximum goals, with the remainder based on individual performance or goals which appear to incorporate a significant degree of subjectivity. Additionally, the CEO received excessive gross-ups related to relocation benefits.

Voting Policy Rationale									
Intevac, Inc.	05/18/2022	Management	8	Yes	Advisory Vote to Ratify Named Executive Officers' Compensation	For	For		For
					A vote FOR this proposal is warranted. Pay-for-performance misalignment concerns are sufficiently mitigated at this time. Although the bonus plan places significant weight on individual performance, payouts were well below target and aligned with performance. In addition, a majority of equity awards were subject to performance conditions. All of former CEO Blonigan's 2021 equity grants were canceled in connection with his termination.

Intra-Cellular Therapies, Inc.	06/09/2022	Management	4	Yes	Ratify Ernst & Young LLP as Auditors	For	For	Against	Against
					A vote AGAINST this item is warranted because: " the non-auditing consulting fees represent more than 25 percent of total fees paid; and " the auditor's tenure at the company exceeds seven years.				
Intra-Cellular Therapies, Inc.	06/09/2022	Management	5	Yes	Advisory Vote to Ratify Named Executive Officers' Compensation	For	For	Against	Against
					A vote AGAINST this proposal is warranted because: " The company maintains legacy agreements that contain a modified single-trigger change-in-control provision;" Equity award arrangements provide for automatic accelerated vesting upon a change-in-control; and " The company lacks a compensation clawback policy, stock ownership guidelines, or holding period requirements for executives.				
Intra-Cellular Therapies, Inc.	06/09/2022	Management	6	Yes	Advisory Vote on Say on Pay Frequency	One Year	One Year	One Year	One Year
					A vote for the adoption of an ANNUAL say-on-pay frequency is warranted. Annual say-on-pay votes are considered a best practice as they give shareholders a regular opportunity to opine on executive pay.				
Intrepid Potash, Inc.	05/19/2022	Management	1	Yes	Elect Director Mary E. McBride	For	Against	Against	Against
					Votes AGAINST non-independent nominee Barth Whitham are warranted for lack of a majority independent board. Intrepid Potash, Inc.	05/19/2022	Management	4	Yes	Advisory Vote to Ratify Named Executive Officers' Compensation	For	For	For	For
					Although a concern is noted, votes FOR this proposal is warranted as pay and performance are reasonably aligned at this time.				
Intrepid Potash, Inc.	05/19/2022	Management	5	Yes	Amend Omnibus Stock Plan	For	Against	Against	Against
					A vote AGAINST this proposal is warranted because: " The company's potential Voting Power Dilution (VPD) for all incentive plans of 11.74 percent is excessive. " The equity granted to the named executives during the last fiscal year exceeds 15 percent of total awards. " The company's three-year average burn rate is excessive.				
IntriCon Corporation	05/24/2022	Management	1	Yes	Approve Merger Agreement	For	For	For	For
					A vote FOR this proposal is warranted given that the all-cash offer represents a 39.2 percent premium to the unaffected share price and provides liquidity and certainty of value. In addition, there is a potential downside risk of non-approval given the outperformance of IIN shares to date relative to peers.				
IntriCon Corporation	05/24/2022	Management	2	Yes	Advisory Vote on Golden Parachutes	For	For	For	For
					A vote FOR the proposal is warranted. Although unvested equity awards are subject to single-trigger vesting, cash severance is double trigger, reasonably based, and no excise tax gross-ups are payable.				
IntriCon Corporation	05/24/2022	Management	3	Yes	Adjourn Meeting	For	For	For	For

Invacare Corporation	05/19/2022	Management	10	Yes	Advisory Vote to Ratify Named Executive Officers' Compensation	For	For	For	For
					A vote FOR this proposal is warranted. The compensation committee demonstrated sufficient responsiveness to last year's failed say-on-pay vote. In addition, the pay-for-performance misalignment is mitigated at this time given that the short- and long-term incentive programs were entirely performance-based, and bonuses and performance awards were forfeited when goals were not met.

Jefferies Financial Group Inc.	03/29/2022	Management	13	Yes	Advisory Vote to Ratify Named Executive Officers' Compensation	For	Against	Against	Against
									Following the second consecutive year of low support for the say-on-pay proposal, the company disclosed details of its shareholder engagement efforts and certain feedback received. However, disclosure of certain expressed concerns is vague, and shareholders may question whether the transition to a new pay program that places a greater emphasis on discretion fully addresses their concerns. Disclosure around these issues needs improvement, and the committee has demonstrated only a limited degree of responsiveness to low say-on-pay support.The new pay program's reliance on committee discretion to determine NEO pay raises concerns, and incomplete disclosure of target goals, per-metric weightings, and target pay opportunities for certain NEOs inhibits investors' ability to fully assess the pay-for-performance linkage. Further, although half of FY21 performance year equity awards are based on clearly disclosed multi-year goals, the transition awards granted to the CEO and President in FY21 lack pre-set, multi-year performance criteria and vest solely over time. The magnitude of compensation opportunities for the CEO and President exacerbates structural concerns.In light of the company's limited responsiveness to last year's say-on-pay vote result and an unmitigated pay-for-performance misalignment, a vote AGAINST this proposal is warranted.

There should be a clear division between the head of the company, and the chair of the board. When there is no clear division of independence between the executive and board branches of a company, poor executive and/or board actions often go unchecked to the ultimate detriment of shareholders. A vote FOR this proposal is warranted as it seeks the adoption of a policy that requires the board's chairman to be an independent director.

Karuna Therapeutics, Inc.	06/15/2022	Management	4	Yes	Advisory Vote to Ratify Named Executive Officers' Compensation	For	Against	Against	Against	A vote AGAINST this proposal is warranted. CEO pay was again elevated for the year in review, and equity grant vests increased year-over-year. Long-term incentives remain entirely delivered as time-vesting options, which do not require the achievement of performance criteria in order to vest. The company also benchmarks long-term incentive values at the 75th percentile of the peer group, a practice which is generally disfavored by investors and which can lead to increased compensation without requiring a link to performance. Further, annual incentives were earned above target based on the committee's subjective assessment of performance, with limited disclosure of specific targets and achievements considered.

Kemper Corporation	05/04/2022	Management	13	Yes	Advisory Vote to Ratify Named Executive Officers' Compensation	For	Against	Against	Against	A vote AGAINST this proposal is warranted. Notwithstanding a year-over-year decrease in annual incentive payouts, there are concerns raised with the structure of the annual incentive program. The annual incentive pool is funded as a percentage of adjusted net income, which does not require year-over-year growth in order for pool funding to occur, and individual payout determinations are discretionarily determined. Further, although the majority of the CEO's long-term incentives are delivered in performance shares earned based on clearly disclosed multi-year goals, there are concerns regarding goal rigor under the LTI program, as the relative TSR PSUs merely target median performance and there is no disclosed cap in the event of negative absolute TSR.

Kennedy-Wilson Holdings, Inc.	06/09/2022	Management	4	Yes	Amend Omnibus Stock Plan	For	For	Against	Against	A vote AGAINST this proposal is warranted because: " The equity granted to the named executives during the last fiscal year exceeds 15 percent of total awards. " The company's three-year average burn rate is excessive. " The plan administrator may provide loans to exercise awards.
Kennedy-Wilson Holdings, Inc.	06/09/2022	Management	5	Yes	Advisory Vote to Ratify Named Executive Officers' Compensation	For	Against	Against	Against	A vote AGAINST this proposal is warranted. Although the company returned to a more formulaic STI structure in 2021, a significant portion of the program was based on a discretionary assessment of strategic objectives. In addition, there are concerns regarding high base salaries and target STI opportunities for the CEO and certain NEOs, which resulted in large maximum payouts for the year in review. Further, although the weighting of performance shares under the annual LTI program increased, the value of the CEO's annual-cycle LTI awards also increased significantly without a clearly disclosed rationale, when the value of a special, off-cycle award granted in 2020 is excluded. Moreover, the relative TSR LTI metric targets merely the index, and the proxy does not disclose a cap on vesting if absolute TSR is negative for the performance period. Lastly, concerns remain with respect to the large life insurance and aircraft-related perquisites, as well as the problematic change in control provisions in existing agreements with executives.

Kratos Defense & Security Solutions, Inc.	06/14/2022	Management	10	Yes	Advisory Vote to Ratify Named Executive Officers' Compensation	For	For	For	For	A vote FOR this proposal is warranted, with caution. While a significant portion of the annual incentive is based on poorly disclosed strategic metrics and the committee retains the discretion to grant bonuses at target despite actual performance, payouts are capped at target and no discretionary adjustments were made to FY21 awards. Further, although the CEO's FY21 LTI grant value was of significant magnitude, LTI awards are half performance-based with a multi-year performance period, and earned shares are also capped at target. Continued monitoring is warranted regarding the magnitude of long-term incentive awards.

Kronos Worldwide, Inc.	05/18/2022	Management	8	Yes	Advisory Vote to Ratify Named Executive Officers' Compensation		Against	Against	Against	A vote AGAINST this proposal is warranted. While the proxy does indicate the amount of compensation each NEO receives from the parent, the company does not disclose the breakdown of fixed versus variable pay nor does it report metrics, if any, used to determine variable pay amounts. Without this information, shareholders cannot make a fully informed decision on this say-on-pay proposal. In addition, the company does not disclose a sufficient compensation clawback policy, sufficient stock ownership guidelines, or holding period requirements for executives.

Krystal Biotech, Inc.	05/20/2022	Management	5	Yes	Advisory Vote to Ratify Named Executive Officers' Compensation	For	For	For	For	A vote FOR this proposal is warranted with caution. Laredo Petroleum, Inc.	05/26/2022	Management	4	Yes	Advisory Vote to Ratify Named Executive Officers' Compensation	For	For	For	For	Support is warranted FOR this proposal. Annual incentives are primarily based on an objective scorecard and the committee simplified the program for FY21. Further, while the annual incentive payouts may be modified by subjectively determined strategic performance, the committee did not adjust the corporate score for the year in review. Long-term incentives are half performance-based with a multi-year performance period and clearly disclosed forward-looking goals. While the CEO's grant value increased year-over-year, he received fewer underlying shares, somewhat mitigating windfall risk. However, the committee intends to increase components of CEO pay in FY22, so investors should monitor overall pay levels next year.

Shareholder engagement efforts and investor feedback following the low vote result are only vaguely disclosed. The committee disclosed its actions and considerations specifically with respect to equity grants for 2021 and certain other positive changes to the pay program, however, it is unclear whether these adequately address shareholders' concerns given that there's no disclosure on specific shareholder feedback. As such, the compensation committee demonstrated only limited responsiveness to shareholder concerns.

Meta Financial Group, Inc.	02/22/2022	Management	4	Yes	Advisory Vote to Ratify Named Executive Officers' Compensation	For	For	For	For	A vote FOR this proposal is warranted, but with caution. The company established an LTI program for the CEO and CFO in the year under review that will expand to include all NEOs in FY22. There is concern regarding the rigor of the relative TSR metric under the new LTI program and the committee's decision to remove a financial metric from the CFO's in-progress FY21 PSUs. However, the STI is predominately based on pre-set objective goals, and the awards granted under the new LTI program were entirely performance-based. Further, the removal of one metric from mid-cycle PSUs only affects one NEO and doesn't appear motivated by a desire to increase payouts, as performance under the eliminated metric was achieved at maximum for FY21. Continued monitoring of the new LTI program structure and resulting outcomes is warranted, given the concerns noted above.
