Heritage-Crystal Clean, Inc.	06/13/2023	Management	2	Yes	Elect Director Robert W. Willmschen, Jr.	For	Withhold	Withhold	Withhold	WITHHOLD votes for non-independent nominees Bruce Bruckmann and Robert Willmschen Jr. are warranted for lack of a majority independent board. WITHHOLD votes for Bruce Bruckmann and Robert Willmschen Jr. are also warranted for serving as non-independent members of a key board committee. WITHHOLD votes for incumbent director nominees Bruce Bruckmann and Robert Willmschen Jr. are warranted (i) given the board's failure to acknowledge and adequately respond to director Charles Schalliol's lack of majority support last year; and (ii) for demonstrating poor responsiveness to low say-on-pay support for four consecutive years, including last year's failed say-on-pay vote. WITHHOLD votes for Robert Willmschen Jr., as nominating committee member, are further warranted for lack of racial and ethnic diversity on the board.
Heritage-Crystal Clean, Inc.	06/13/2023	Management	3	Yes	Ratify Grant Thornton LLP as Auditors	For	For	Against	Against	A vote AGAINST this item is warranted as the auditor's tenure at the company exceeds seven years.
Heritage-Crystal Clean, Inc.	06/13/2023	Management	4	Yes	Increase Authorized Common Stock	For	For	For	For	A vote FOR this proposal is warranted given that the proposed increase in authorized shares is reasonable and there are no substantial concerns about the company's past use of shares.
Heritage-Crystal Clean, Inc.	06/13/2023	Management	5	Yes	Advisory Vote to Ratify Named Executive Officers' Compensation	For	Against	Against	Against	A vote AGAINST this proposal is warranted given that the compensation committee demonstrated poor responsiveness to shareholder concerns following last year's failed say-on-pay proposal. In addition, concerns are raised with regards to the excise tax gross-up provisions embedded in legacy agreements with certain executives, the lack of any performance-contingent pay elements for the CEO's equity awards, and the company's lack of risk mitigating provisions.
Heritage-Crystal Clean, Inc.	06/13/2023	Management	6	Yes	Advisory Vote on Say on Pay Frequency	One Year	One Year	One Year	One Year	A vote for the adoption of an ANNUAL say-on-pay frequency is warranted. Heska Corporation	05/03/2023	Management	10	Yes	Amend Omnibus Stock Plan	For	For	Against	Against	A vote AGAINST this proposal is warranted because: * The plan administrator may provide loans to exercise awards. * The equity granted to the named executives during the last fiscal year exceeds 15 percent of total awards.
Heska Corporation	05/03/2023	Management	11	Yes	Advisory Vote to Ratify Named Executive Officers' Compensation	For	For	For	For	A vote FOR this proposal is warranted. The compensation committee demonstrated sufficient responsiveness to shareholder concerns following last year's failed say-on-pay proposal. In addition, the pay-for-performance misalignment is mitigated at this time. The CEO's pay significantly decreased following last year's large multi-year grant and the CEO will not receive awards until 2025. Some concerns are raised with respect to annual performance measurement and the apparent performance retesting feature for performance-based equity awards. However, the company intends to grant future performance awards with a three-year performance period. In addition, cash incentives were earned below target in line with performance, with the CEO waiving his bonus entirely.
Heska Corporation	06/07/2023	Management	1	Yes	Approve Merger Agreement	For	For	For	For	A vote FOR this transaction is warranted. Concerns regarding the board's decision to forgo an auction process appear to be mitigated, as HSKA has received no additional offers since the announcement of the merger. In addition, the offer represents a premium to the unaffected price, the cash consideration provides certainty of value, and there appears to be downside risk of non-approval given the stock's outperformance since the unaffected date.
Heska Corporation	06/07/2023	Management	2	Yes	Advisory Vote on Golden Parachutes	For	Against	Against	Against	A vote AGAINST this proposal is warranted. Cash severance is double trigger and reasonably based, and no excise tax gross-ups are payable. However, unvested equity awards will be automatically accelerated upon the closing of the merger and cashed out, including recently granted shares. Further, certain performance shares will be deemed earned at maximum performance level.

Although the CEO's annual incentive was primarily determined by pre-set financial metrics, the disclosure around the strategic component is limited. Additionally, multiple performance targets were set below the previous year's actual results. This concern is compounded given that a portion of PSUs utilize one-year performance periods and an overlapping metric with the annual incentive program. Moreover, while the bonus pool for the other NEOs is funded based on financial metrics, final payouts are ultimately determined by the committee's discretion. Furthermore, although half of equity awards are performance conditioned, relative performance metrics target merely median performance.

Hovnanian Enterprises, Inc.	03/28/2023	Management	10	Yes	Advisory Vote to Ratify Named Executive Officers' Compensation	For	For	For	For	Although certain concerns exist with respect to the structure of the CEO's annual bonus opportunity and the use of relatively short performance periods for a portion of the long-term incentive awards, annual and long-term incentive programs are entirely performance-based, and the increase in the CEO's total pay for FY22 was largely driven by maximum-level annual and long-term incentive payouts, in line with actual performance. Given these factors, the quantitative misalignment between pay and performance is mitigated for the year in review.

IMAX Corporation	06/08/2023	Management	12	Yes	Advisory Vote on Executive Compensation Approach	For	Against	Against	Against	A vote AGAINST this proposal is warranted. The company on balance made positive changes to the pay program following a failed say-on-pay vote result. Further, concerns regarding a pay-for-performance misalignment were mitigated, as the short-term program is largely based on pre-set financial metrics, while the LTI program is half in performance equity and utilizes a multi-year performance period. However, the CEO entered into an amended employment agreement in FY22 which included single-trigger transition payments upon a change in control. This is considered a problematic pay practice, as the provision was not removed when the agreement was amended and the company maintains agreements that contain a single trigger change in control provision.

Annual incentives were sufficiently performance-based. Although long-term incentives were targeted to be half performance-based, PSUs utilize only a single annual performance period with one metric which completely overlaps a metric in the annual incentives. Moreover, the committee made several decisions regarding equity awards which significantly increased the magnitude of CEO Walia's pay and contributed to the misalignment between pay and performance, including the granting of a half time-based special award in February 2022, the accelerated granting of the time-based portion of FY23 awards, and the modification of outstanding performance options to allow for vesting without achievement of the corresponding performance goals.

Inogen, Inc.	05/31/2023	Management	4	Yes	Advisory Vote to Ratify Named Executive Officers' Compensation	For	For	For	For	A vote FOR this proposal is warranted, with caution. The PRSUs utilize annual performance periods, and the PRSU revenue metric and revenue target for the 2022 performance period overlap with the short-term incentives. However, half of the annual equity is performance based, and the annual incentives were based on objective financial metrics. Additionally, the 2022 tranches of the PRSUs granted in 2021 and 2022 were earned below threshold and target level, respectively, in line with company performance. Nevertheless, close monitoring of the pay program is warranted.

Kratos Defense & Security Solutions, Inc.	05/24/2023	Management	12	Yes	Advisory Vote to Ratify Named Executive Officers' Compensation	For	For	For	For	A vote FOR this proposal is warranted, with caution. Although the CEO's FY22 LTI grant value declined slightly, the magnitude of his award, and thus his overall pay, remains relatively high, and a significant portion of the annual incentive appears to be based on the committee's discretionary assessment of strategic performance. Nevertheless, payouts for both the annual and long-term incentive awards are capped at target, with the FY22 annual incentive paid out below target in line with company performance, and LTI awards are half performance-based with a multi-year performance period. Continued monitoring is warranted regarding the magnitude of long-term incentive awards.

WITHHOLD votes for director nominees Bruce Booth, Nello Mainolfi, John Maraganore, and Elena Ridloff are warranted given the board's failure to remove, or subject to a sunset requirement, the classified board and the supermajority vote requirement to enact certain changes to the governing documents, each of which adversely impacts shareholder rights. WITHHOLD votes for board chair Bruce Booth are further warranted for the apparent lack of racial/ethnic diversity on the board.

LendingTree, Inc.	06/21/2023	Management	10	Yes	Advisory Vote to Ratify Named Executive Officers' Compensation	For	For	For	For	A vote FOR this proposal is warranted, with caution. Annual incentives were entirely determined by a pre-set financial metric and NEOs did not earn bonuses, which generally aligned with the company's FY22 financial performance. In addition, the CEO did not receive long-term incentives for the year in review following a front-loaded award granted in FY20. However, continued monitoring is warranted given that Lebda's front-loaded award is also intended to cover equity compensation for FY23 and the remaining NEOs' annual-cycle awards were entirely time-vesting.

LendingTree, Inc.	06/21/2023	Management	12	Yes	Approve Omnibus Stock Plan	For	For	Against	Against	A vote AGAINST this proposal is warranted because: * The company's potential Voting Power Dilution (VPD) for all incentive plans of 17.40 percent is excessive. * The equity granted to the named executives during the last fiscal year exceeds 15 percent of total awards. * The plan allows for company loans to officers for the exercise of stock options.

There has been a pullback in the broader banking industry which has impacted each of WAFD and LBC. LBC shares have declined, but nonetheless have slightly outperformed the community bank index since announcement. At the same time, the strategic rationale appears sound and the equity form of consideration allows shareholders to participate in the upside potential of the combined company.

M.D.C. Holdings, Inc.	04/17/2023	Management	5	Yes	Advisory Vote to Ratify Named Executive Officers' Compensation	For	Against	Against	Against	A vote AGAINST this proposal is warranted given the unmitigated pay-for-performance misalignment. While the CEO and executive chairman's annual incentives are measured against objective metrics, there are goal rigor concerns, which is particularly concerning given the high maximum payout opportunities for the CEO and executive chairman. Further, the other NEO's annual incentive appears to be determined by qualitative objectives without clearly disclosed target goals and achievements. In addition, the CEO and executive chairman's long-term incentives were delivered entirely in fully-vested stock options with exercisability restrictions, and the total number of shares underlying awards increased significantly, which may lead to a considerable windfall for executives. Lastly, the executive chairman receives higher total compensation than the CEO, and shareholders may question the need for multiple executives to receive CEO-level compensation, which exacerbates the multiple concerns regarding pay design and magnitude.

While there are some concerns regarding goal rigor under the annual incentive program, payouts are primarily based on pre-set objectives with clear disclosure of per-metric weights and performance targets. Following the failed say-on-pay vote, the committee demonstrated only limited responsiveness to investor concerns. Further, the CEO's salary remains large, impacting his annual incentive opportunity. Concerns are also raised regarding long-term incentive awards, which primarily use a one-year performance period with several subjectively measured goals. The FY22 grant was again earned near maximum. The proxy also does not indicate if the new multi-year ROIC performance awards will replace a portion of the CEO's existing grant value or if this addition is expected to result in increased CEO pay levels. Additionally, the company maintains agreements that contain a modified single trigger change in control provision.

National Western Life Group, Inc.	06/22/2023	Management	5	Yes	Advisory Vote to Ratify Named Executive Officers' Compensation	For	Against	Against	Against	A vote AGAINST this proposal is warranted. CEO pay was driven higher due to an increase in equity compensation, which was relatively large, and with no rationale provided in the proxy as to why the magnitude of his stock awards increased so significantly. Furthermore, the large majority of equity awards lack performance-vesting criteria and the forward-looking performance goals underlying the PSU grants are not disclosed. Additionally, disclosure of the STI program is incomplete, and proxy disclosure indicates individual metrics do not have maximum goals, which has the potential to result in significant payouts for strong performance in one metric, even if performance against the remaining metrics is poor. Finally, equity awards allow for auto-accelerated vesting upon a change-in-control event, and the company lacks risk-mitigating provisions such as a clawback policy, stock ownership guidelines or holding period requirements for executives.

Nektar Therapeutics	06/08/2023	Management	5	Yes	Advisory Vote to Ratify Named Executive Officers' Compensation	For	For	For	For	A vote FOR this proposal is warranted, with caution. Relatively high CEO granted pay remains a concern particularly in light of long-term TSR performance that significantly lags peers. However, annual and long-term incentives are sufficiently tied to performance conditions and outcomes under those programs are aligned with the company's actual performance. In FY22, the termination of one of the company's major drug candidate programs is reflected in incentive program outcomes, as the company did not make adjustments to awards to mitigate the impact. Continued monitoring of the pay program is warranted to ensure that pay outcomes continue to be aligned with performance.

Following last year's failed say-on-pay vote, the company contacted a substantial portion of its shareholders and disclosed details of those engagement efforts, including shareholders' feedback and concerns. In response, the committee then made several meaningful changes to the compensation program to address shareholders' expressed concerns. In addition, while some concerns are noted regarding the annual incentive program, these appear to be largely mitigated by the incorporated changes for FY23. Further, half of long-term incentives are performance conditioned with multi-year performance periods, and pay outcomes under both incentive programs were below target, which generally aligned with the company's financial and TSR performance.

Old National Bancorp	05/10/2023	Management	17	Yes	Advisory Vote to Ratify Named Executive Officers' Compensation	For	For	For	For	A vote FOR this proposal is warranted, with caution. The increase in CEO pay is driven by pay decisions made in connection with the merger of equals between the legacy company and First Midwest Bancorp, including increases to STI and LTI opportunities, and a one-time integration award of PSUs. Although the performance-condition for the one-time award overlaps with an STI metric and goal, the weighting of the STI metric is relatively small and the committee's rationale for utilizing the metric in both vehicles is reasonable. Additionally, the CEO's award is 100 percent performance-based, and all merger-related one-time awards were granted in exchange for the executive agreeing to waive good reason rights that would qualify them for severance. There is some concern surrounding STI and LTI goal rigor, which warrants continued close monitoring. However, the STI program is entirely based on quantified, pre-set goals, and the majority of LTI awards are earned based on clearly disclosed multi-year goals. Continued close monitoring of pay program goal rigor, outcomes and pay levels is warranted.

Park-Ohio Holdings Corp.	05/17/2023	Management	6	Yes	Advisory Vote to Ratify Named Executive Officers' Compensation	For	Against	Against	Against	A vote AGAINST this proposal is warranted given that the pay-for-performance misalignment is not mitigated at this time. While the CEO's pay significantly decreased during a period of poor company performance and the CEO's bonus is performance-based, ongoing concerns remain with the pay program. Equity awards are entirely time-vesting, the CEO's maximum bonus opportunity is excessive, and other NEO bonuses are largely discretionary.

Pathward Financial, Inc.	02/28/2023	Management	3	Yes	Advisory Vote to Ratify Named Executive Officers' Compensation	For	For	For	For	A vote FOR this proposal is warranted, with some caution. Reported CEO pay includes two years of equity grants, given a transition in incentive award structure and, as a result, investors should expect CEO pay to normalize going forward. There is some concern regarding the use of annually set goals in the long-term incentive program. However, results are averaged at the end of three years. Additionally, annual incentives are predominantly based on pre-set objective goals with improved disclosure of individual performance factors for non-quantitative metrics, although enhanced disclosure would benefit shareholders.

PBF Energy Inc.	05/03/2023	Management	12	Yes	Advisory Vote to Ratify Named Executive Officers' Compensation	For	For	For	For	A vote FOR this proposal is warranted with caution. Annual incentives were primarily determined by pre-set objective metrics and the disclosure around actual results improved compared to the previous year. While NEOs were granted discretionary bonuses for FY22, this concern is mitigated for the year in review as the portion of annual incentives tied to committee discretion was reduced from 20 percent to 2.5 percent. Regarding long-term incentives, a majority of awards are performance conditioned and measured over multi-year periods. Although TSR targets merely median performance, payouts are capped in the event absolute TSR is negative. However, continued monitoring is warranted as the CEO's base salary remains relatively high and his target long-term incentive was increased during FY22.

Pediatrix Medical Group, Inc.	05/11/2023	Management	10	Yes	Advisory Vote to Ratify Named Executive Officers' Compensation	For	For	For	For	A vote FOR this proposal is warranted. The board has demonstrated sufficient responsiveness to shareholder concerns contributing to low support for the 2022 say-on-pay proposal and implemented positive changes to the pay program to address their feedback. In addition, pay-for-performance concerns are mitigated. Annual incentives were primarily based on objective measures, and the company improved its disclosure on the achievements related to non-financial metrics, in response to shareholder feedback. Half of the equity awards were performance conditioned and were forfeited upon failure to achieve the 2022 performance goal. Additionally, in response to shareholder feedback, the committee introduced a multi-year performance period for the performance equity awards granted in 2023.

PennyMac Financial Services, Inc.	06/13/2023	Management	14	Yes	Advisory Vote to Ratify Named Executive Officers' Compensation	For	Against	Against	Against	The STI is predominantly based on a quantified, pre-set metric and half of LTI awards are based on clearly-disclosed, multi-year goals. However, the financial STI metric target was set below the prior year's results without a corresponding pay reduction and disclosure regarding the individual strategic component is severely limited. These STI concerns are heightened given large STI opportunities and what appears to be a maximum payout under the strategic component. Accordingly, the quantitative pay-for-performance misalignment is not mitigated. Additionally, an NEO received material severance payments and benefits in connection with a separation that is not clearly disclosed as involuntary, which is considered problematic. In light of the unmitigated pay-for-performance misalignment and problematic severance payments and benefits, a vote AGAINST this proposal is warranted.

Penske Automotive Group, Inc.	05/11/2023	Management	14	Yes	Amend Certificate of Incorporation to Allow Exculpation of Officers	For	Against	Against	Against	A vote AGAINST this proposal is warranted as such an expansion in exemption from liability would adversely impact officer's accountability in the event of a breach in fiduciary care, which may adversely impact shareholders' interests. Furthermore, the company is controlled and the board which will decide on the company's response to any shareholder litigation has a poor track record on corporate governance.

Peoples Bancorp Inc.	02/23/2023	Management	1	Yes	Issue Shares in Connection with Merger	For	For	For	For	The market reaction to the announced transaction was negative and PEBO shares have since underperformed peers. Nevertheless, the valuation of the transaction does not appear to be unreasonable, and PEBO expects to achieve EPS accretion in both 2023 and 2024. Furthermore, the strategic rationale appears logical, and the combined company is expected to benefit from cost savings and other synergies (estimated at 4.5 percent of transaction equity value, as of announcement). In light of these factors, a vote FOR this transaction is warranted.

Perficient, Inc.	06/07/2023	Management	9	Yes	Advisory Vote on Say on Pay Frequency	One Year	One Year	One Year	One Year	A vote for the adoption of an ANNUAL say-on-pay frequency is warranted. Perficient, Inc.	06/07/2023	Management	10	Yes	Advisory Vote to Ratify Named Executive Officers' Compensation	For	For	Against	Against	A vote AGAINST this proposal is warranted due to the following: * The company provided sizable miscellaneous perquisite to the CEO; * Equity awards allow for auto-accelerated vesting upon a change-in-control event; * The company uses above-median benchmarking for named executives' total pay; and * Equity awards to the CEO in the most recent fiscal year lack performance-vesting conditions.

The majority of the regular-cycle equity awards were performance-conditioned, and annual incentives were based primarily on objective financial metrics with target goals that appear to be rigorous. In addition, the CEO's realizable pay shows directional alignment with the company's long-term stock price performance, and the company improved disclosure of performance targets and results under the long-term incentive program. While some concerns are raised surround the use of an overlapping metric, which is measured over a one-year performance period, earned PSUs are based on the average of the vesting for each year in the three-year performance period, mitigating some of the concerns surrounding this structure.

Playtika Holding Corp.	06/08/2023	Management	8	Yes	Advisory Vote to Ratify Named Executive Officers' Compensation	For	Against	Against	Against	A vote AGAINST this proposal is warranted. CEO total pay remains outsized compared to peers and is not substantiated by superior performance. Although the annual incentive program is based on a pre-set financial metric, the CEO's annual target cash opportunity is relatively high, and the NEOs continued to receive significant payouts under the retention bonus plan, a portion of which appears guaranteed. Additionally, while the long-term incentives were entirely based on performance, the PSUs utilize annual performance periods and goals for all four performance periods were lowered, with no compelling rationale provided. Additionally, the decision to offer a non-shareholder approved exchange program that allows NEOs to exchange underwater stock options for RSUs is considered problematic. Lastly, concerns are also raised with respect to the excise tax gross-up payment and single-trigger equity vesting acceleration in the event of a change in control, the excessive security-related perquisite provided to the CEO, and the tax gross-ups on certain executives' perquisites.

Provident Financial Services, Inc.	02/01/2023	Management	1	Yes	Issue Shares in Connection with Acquisition	For	For	For	For	While there has been no public opposition to the proposed transaction, the strong negative share price reaction at announcement and continued underperformance against the market may raise concerns among shareholders and signal potential near-term upside of non-approval. Nonetheless, the strategic rationale appears sound, as the combined company will be the second largest bank headquartered in New Jersey, with complementary loan and deposit portfolios, and a broader set of product offerings on a pro forma basis. The merger is expected to generate \$65 million of annual cost savings and be accretive to earnings, and the combined company is expected to have stronger profitability metrics than PFS on a standalone basis. Additionally, the merger is expected to generate revenue synergies through multiple identified cross-sell opportunities. On balance, in light of a reasonable strategic rationale and financial metrics, support FOR the proposed transaction is warranted.

Ranger Oil Corporation	06/16/2023	Management	1	Yes	Approve Merger Agreement	For	For	For	For	A vote FOR this transaction is warranted, as the cash consideration provides liquidity and certainty of value, the equity portion provides an opportunity in any potential upside of the combined company, and there appears to be downside risk of non-approval given the stock's outperformance since the unaffected date.
Ranger Oil Corporation	06/16/2023	Management	2	Yes	Advisory Vote on Golden Parachutes	For	For	For	For	A vote FOR this proposal is warranted. Some concern is raised that performance-based awards will be deemed earned at the maximum number of shares for the purpose of converting the awards, and NEOs will be entitled to payouts equal to their FY23 LTIP target. However, the LTIP payouts are double trigger and will be pro-rated, and all unvested equity awards will be assumed by the acquirer and remain subject to double-trigger acceleration. Further, cash severance is double-trigger and reasonably based, and no excise tax gross-ups are payable.

Ranpak Holdings Corp.	05/25/2023	Management	4	Yes	Advisory Vote to Ratify Named Executive Officers' Compensation	For	Against	Against	Against	A vote AGAINST this proposal is warranted given that the compensation committee demonstrated poor responsiveness to shareholder concerns following last year's low say-on-pay support. The pay-for-performance misalignment is mitigated at this time. While concerns are raised that performance-based awards are earned based on annual performance periods utilizing the same metric as cash incentives, these concerns are mitigated at this time. Short- and long-term incentives are entirely performance-based and were not earned when goals were not met. The CEO's entire pay consisted of performance awards, which he forfeited.

Sage Therapeutics, Inc.	06/15/2023	Management	6	Yes	Advisory Vote to Ratify Named Executive Officers' Compensation	For	Against	Against	Against	A vote AGAINST this proposal is warranted. The compensation committee demonstrated adequate responsiveness to last year's low support for the say-on-pay proposal. Nevertheless, there are ongoing concerns that underscore the quantitative pay-for-performance misalignment. While it is noted that CEO total pay declined, and certain positive changes will be made in FY23, significant concerns remain surrounding disclosures and the structure of its incentive programs. Specifically, in the LTI, while it is noted that the company increased the proportion of PSUs, the company provides limited disclosure surrounding quantifiable targets for certain milestones to be achieved. Further, the proxy does not disclose a timeframe under which the milestones must be achieved. In addition, concerns remain in STI, as the award is based on goals that are generally described in qualitative or vague terms, which inhibits shareholders' ability to fully assess the rigor of the program and the pay-for-performance linkage.

Schnitzer Steel Industries, Inc.	01/25/2023	Management	4	Yes	Advisory Vote to Ratify Named Executive Officers' Compensation	For	For	For	For	A vote FOR this proposal is warranted, with caution. Total CEO pay declined amid poor TSR performance, annual incentives are largely based on rigorous pre-set financial goals, and half of equity awards were performance-based with a multi-year measurement period. Nonetheless, annual incentive award opportunities remain relatively high and shareholders would benefit from improved disclosure of performance share goals. These issues warrant continued monitoring.

Schrodinger, Inc.	06/15/2023	Management	4	Yes	Advisory Vote to Ratify Named Executive Officers' Compensation	For	For	For	For	A vote FOR this proposal is warranted, with caution. While certain concerns remain surrounding the CEO's LTI which consisted entirely of stock options, mitigating factors are present for the year in review. Specifically, CEO pay declined significantly for the year in review, following the company's IPO in 2020. Further, the company introduced performance-based equity to the LTI in FY23, which represents a significant improvement, particularly given it will make up approximately half the CEO's LTI. In addition, the company improved its disclosure of category weightings and achievement in FY22 STI, and below target payouts appear to be in-line with company performance. However, continued close monitoring of the pay program is warranted. Investors should expect more fulsome STI disclosure in future years and may expect enhanced disclosures surrounding goal setting for PSUs in FY23.

SentinelOne, Inc.	06/29/2023	Management	3	Yes	Advisory Vote to Ratify Named Executive Officers' Compensation	For	Against	Against	Against	A vote AGAINST this proposal is warranted. Although certain positive changes to next year's pay program were disclosed, the pay-for performance misalignment was not sufficiently mitigated. Annual incentives were entirely discretionary, while long-term incentives were granted exclusively in time-vesting equity. Significant concern is raised by the magnitude of pay for NEO Srivastan, who received greater total compensation than the CEO due to a significant new hire equity award granted entirely in time-vesting RSUs. The CEO also received an entirely time-vesting long-term incentive award of relatively high magnitude. Lastly, concerns are raised regarding the company's provision of an inordinate amount of home security perquisites to the CEO, as well as the company's lack of risk-mitigating provisions such as a clawback policy, stock ownership guidelines, or holding period requirements for executives.

A pay-for-performance misalignment for the year under review is mitigated given that the CEO's sizable new hire equity grant is half performance-based and annual and long-term incentives are otherwise also sufficiently tied to rigorous performance goals. However, a problematic pay practice has been identified relating to NEO severance arrangements. An NEO received severance payments upon his resignation from the company, and although his cash severance was modest, accelerated vesting of his equity awards is a problematic enhancement given that the disclosure does not clearly indicate that the separation was involuntary.

The annual bonus program was based on pre-set objective metrics, and the long-term incentive is predominately performance conditioned with clearly disclosed goals. This represents a significant improvement, as the FY21 LTI was entirely time-based. While there are some concerns with certain STI financial goals that were set quarterly, the aggregate financial target goals appear rigorous, and payouts were in-line with company performance. As the company matures, shareholders should continue to monitor the rigor of the LTI, as the company targets merely the median for the relative TSR metric.

SiriusPoint Ltd.	06/01/2023	Management	3	Yes	Advisory Vote to Ratify Named Executive Officers' Compensation	For	Against	Against	Against	A vote AGAINST this proposal is warranted. A pay-for-performance misalignment exists for the year under review, however certain mitigating factors have been identified. Sign-on awards to the new executives, including the new CEO, are reasonable in magnitude and include stock options that are either premium-priced or vest only upon reaching stock price appreciation goals. The reintroduction of performance-based equity awards in FY23 mitigates concern regarding the lack of such awards in FY22. Finally, the annual incentive program is substantially tied to financial objectives with clearly disclosed goals. However, a problematic pay practice has been identified with respect to the severance paid to former CEO Sankaran. The terms of Sankaran's severance raise significant concern given that the severance was paid at the level of an involuntary termination when his termination is not clearly disclosed as such.

WITHHOLD votes for Governance Committee members Katherine Blair and Yolanda Macias are warranted given the board's failure to remove, or subject to a sunset requirement, the multi-class capital structure which adversely impacts shareholder rights.
Skechers U.S.A., Inc.	06/12/2023	Management	4	Yes	Amend Certificate of Incorporation to Permit the Exculpation of Officers	For	Against	Against	Against	A vote AGAINST this proposal is warranted as such an expansion in exemption from liability would adversely impact officer's accountability in the event of a breach in fiduciary care, which may adversely impact shareholders' interests. In addition, the company is controlled and the board which will decide on the company's response to any shareholder litigation has a poor track record on corporate governance.
Skechers U.S.A., Inc.	06/12/2023	Management	5	Yes	Approve Omnibus Stock Plan	For	For	Against	Against	A vote AGAINST this proposal is warranted because the equity granted to the named executives during the last fiscal year exceeds 15 percent of total awards.
Skechers U.S.A., Inc.	06/12/2023	Management	6	Yes	Advisory Vote to Ratify Named Executive Officers' Compensation	For	Against	Against	Against	A vote AGAINST this proposal is warranted. The CEO receives an outsized salary, and three executives including the CEO received significant perks and associated tax gross ups. Although annual incentives are based on a financial metric, all executives are eligible to receive potentially significant awards, a concern underscored by the CEO's FY22 award of an amount more than four times the median. Moreover, although long-term incentives are half performance-based, half of PRSUs are earned based on annual performance periods, and relative TSR PSUs target merely median performance with no disclosed payout cap for negative absolute TSR.

TechnipFMC plc	04/28/2023	Management	10	Yes	Advisory Vote to Ratify Named Executive Officers' Compensation	For	For	For	For	A vote FOR this proposal is warranted. Following last year's low say-on-pay vote, the company contacted a broad portion of its shareholders, disclosed details of engagement efforts, and made several positive changes to the compensation program to address concerns. In addition, half of the annual incentives were determined by pre-set financial metrics, with clear disclosure of performance goals and achieved results. Although some concerns are noted regarding committee discretion, the disclosure around the ESG Scorecard was improved from the previous year and included the committee's rationale in recommending payouts. Moreover, a majority of long-term incentives were performance conditioned and measured over a multi-year period. While TSR targets merely median performance, this was increased from the previous year in response to shareholder feedback. Further, payouts are capped at target in the event absolute TSR is negative.

Texas Capital Bancshares, Inc.	04/18/2023	Management	13	Yes	Advisory Vote to Ratify Named Executive Officers' Compensation	For	Against	Against	Against	The committee demonstrated sufficient responsiveness to low vote support for the 2022 say-on-pay proposal. However, a vote AGAINST this proposal is warranted due to an unmitigated pay-for-performance misalignment. The committee returned to a multi-year measurement period in the LTI, although forward-looking goals are not disclosed. The FY22 STI program was predominantly based on strategic goals and the remainder on 14 financial metrics for which no individual weightings, pre-set targets, or results alongside the metrics were disclosed. While the company increased the proportion of quantitative metrics for the 2023 annual incentives, the proxy does not disclose whether such metrics will be based on pre-set, disclosed threshold, target and maximum goals. These STI concerns are exacerbated given a maximum payout on a relatively high target opportunity for the CEO.
